GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 700

DATE: April 23, 2025
TIME: 5:00PM
PLACE: 1250 Canal Rd. Lafayette, IN. 47904 Conference Room
MEETING CHAIR: Mr. Mike Gibson

AGENDA

Item

1. Communications and Announcements

2. Public Comment
   2.1. Comments on the Agenda – 5 minutes

3. Review and Approval of Agenda Items and Minutes
   3.1. Review and Approval of Agenda of Meeting No.700 held on April 23, 2025 (pg.1)
   3.2. Review and Approval of Minutes of Meeting No.699 held on March 26, 2025 (pg.2)

4. Old Business
   4.1 Purdue Transit Service RFP Update

5. New Business
   5.1. Approval of New Fare Policy (Exhibit 1 pg.5)
   5.2. Approval of New Fare Structure Draft (Exhibit 2 pg.8)
   5.3. Approval of Service Standards Draft (Exhibit 3 pg.11)
   5.4. Consideration of claims list numbering 40549 through 40674, in the amount of $802,649.57 (pg.17)
   5.5. Consideration of payroll for March 1, 2025, through March 31, 2025, in the amount of $985,460.25. (pg.20)

6. Board and Staff Reports
   6.1. Chief Executive Officer Report (pg.22)

7. Public Comments
   7.1. 3 minutes per speaker

8. Adjournment
   8.1. Next meeting is Wednesday, May 28, 2025, at 1250 Canal Rd., Lafayette, IN. 47904 in the GLPTC Conference Room.

GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 699
MEETING MINUTES

DATE: March 26, 2025
Present: Mike Gibson, Chair
Board James Blanco, Secretary
Julie Ginn
Angel Valentin
Joel Wright

Present: Bryan D. Smith: Chief Executive Officer
Staff Bryan Walck: Manager of Customer Experience
Ron Peters: Operations Manager
Shawn Coffman: Fleet Manager
Lon Lucas: Customer Experience Manager
Shelby Yeaman: Executive Assistant/Project Manager

Guests: James Cover (sit-in attorney), David Kopp, Emma Cheng, Steven (DLZ/GM Development Representative), Craig Coorly

Chair, Julie Ginn, called meeting No. to order at 5:01PM in the GLPTC Board Room, 1250 Canal Road.

COMMUNICATIONS & ANNOUNCEMENTS

PUBLIC COMMENT

REVIEW AND APPROVAL OF AGENDA ITEMS AND MINUTES

Mr. Joel Wright made the motion to approve the agenda of Meeting No.699 held on March 26, 2025. Mr. Angel Valentin seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Joel Wright made the motion to approve the minutes of Meeting No.698 held on February 26, 2025. Mr. Angel Valentin seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

OLD BUSINESS

There is no further update on the Purdue University Transit RFP other than we should be hearing within the next week or so on if CityBus is chosen to do transit services for the 2025-2026 academic year.

NEW BUSINESS

Mr. Joel Wright made the motion to adjourn GLPTC Board Meeting No.699 at 5:05PM. Mr. Angel Valentin seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Mike Gibson read the press release published on March 18, 2025. The floor was then open to any public comment regarding the Build Operate Transfer Hydrogen Fueling Station Project. There was no public comment.

Mr. Angel Valentin made the motion to adjourn the public hearing. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Ms. Julie Ginn made the motion to reconvene the GLPTC Board Meeting No.699. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Angel Valentin made the motion to approve the CEO of signing GM Development Proposal not to exceed $5M. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Bryan Smith discussed proposal with CTE and all were satisfied with the material pricing. The budget was exactly $5M, and the cost came in right at $5M. Mr. Smith is hoping he can negotiate the pricing a bit but overall satisfied. CityBus asked for a robust build, which was decided after extensive research, which includes housing hydrogen on-site.

Mr. Angel Valentin made the motion to approve New Flyer Progress Payments for our Hydrogen Buses. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Smith mentioned we would like to add an extra tank on each bus and have New Flyer also install TripSpark wiring, at minimum, prior to delivery. CityBus is also asking to make progress payments, which would give us a 7.5% discount per bus. We are asking to increase the purchase amount from $6M to $6.4M to allow for the extra tanks and wiring.

Mr. Mike Gibson inquired how many hours the hydrogen buses can run. With just the single tank, they can run on 95% of our routes, but with the added tank, the hydrogen buses can run on any CityBus route and not have to get refueled. Mr. Angel Valentin inquired how hydrogen vehicles compare to our current fleet and how long they run. Mr. Smith answered that all of our buses currently run all day without having to be refueled. Mr. Valentin also inquired about why we went on the route we did with the build we chose. Mr. Smith responded that with the low-pressure choice, we are able to use low pressure or could increase pressure depending on what's needed. You cannot do that if we went with already high-pressure hydrogen.

Mr. Bryan Walck gave a brief presentation on routes currently being run and why the change of Route 24E Redpoint Express is necessary. The amount of ridership that could possibly decrease is only 5%-8%, and that percentage will be able to walk a very short distance to hop on another route to get where they need to go. This change is also necessary so this route can run as an Express Route, which is its full intent as well. It will also cut off quite a few minutes, which is important when moving students to and from campus.

The Board considered approval of the claims list numbering 40471 through 40548, in the amount of $458,671.20. Mr. James Blanco made the motion to approve the claims. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Joel Wright inquired if there were any claims that stood out. Mr. James Blanco responded that the credit card payment was a tad higher, but was informed that anything over $1,000, both the CFO and CEO get notified and have to approve the charges.

The Board considered approval of payroll for February 1, 2025, through February 28, 2025, in the amount of $ 1,014,134.16. Mr. James Blanco made the motion to approve payroll. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

BOARD AND STAFF REPORTS (CEO REPORT)

Mr. Bryan Smith let the Board know he attended the APTA CEO Conference and while there he was informed that the 2024 Low-No Grant Awards will be moving forward through the approval process.

PUBLIC COMMENTS

Mr. Craig Coorly inquired about whether CityBus received FTA guidance, or an advisory opinion, to enter into the Purdue University Transit RFP because of an issue with CityBus going against the charter transit rule. Mr. Smith responded that although we will not disclose what was in our RFP, we did put into our RFP response the limitations we have and followed all the rules and regulations from the FTA on the matter.

Mr. Joel Wright inquired about the operations report, and reporting more accidents. It was mentioned we have had more accidents, but it is also related to having more new operators on the road and training classes learning the ropes of driving our buses on the roads. CityBus is working on a deep dive into those accidents.

ADJOURNMENT

With there being no further business to be transacted, Mr. Joel Wright made the motion to adjourn. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays. The next regular Board Meeting is scheduled for April 23, 2025, at 5:00PM, in the GLPTC Board Room, 1250 Canal Road. The Board Meeting adjourned at 5:41PM.

James Blanco

4/15/25

Fare Policy

DRAFT

1250 CANAL RD. | LAFAYETTE, INDIANA 47904 | (765) 423-2666 | FAX (765) 742-4729
www.gocitybus.com
GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION

I. Purpose

The CityBus Fare Policy provides a strategic framework for fare setting and collection, ensuring equitable, efficient, and financially responsible transit services. Guided by CityBus' mission, this policy supports safe, reliable, and sustainable mobility while fostering accessibility and connectivity. By balancing affordability with financial stewardship, CityBus aims to enhance the quality of life in our community while maintaining operational efficiency and embracing innovation.

II. Policy Principles

CityBus Fare Policy is guided by the following principles:

1. **Equity & Accessibility:** Ensure fares are structured to promote affordability and accessibility for all riders, particularly low-income individuals, seniors, and persons with differing abilities, in accordance with Title VI protections.

2. **Community-Centered Mobility:** Support connectivity and provide mobility services that meet the diverse needs of our community.

3. **Financial Sustainability:** Establish fares that contribute to operational funding while balancing affordability and long-term fiscal responsibility.

4. **Operational Efficiency:** Maintain a fare collection system that minimizes administrative costs and improves ease of use for riders.

5. **Technological Integration:** Adopt modern fare collection and payment systems technology to streamline access and improve customer experience.

III. Board Oversight & Fare Adjustments

The CityBus Board of Directors has the authority to set the base fare, establish pass and discount programs, and define all aspects of the agency's fare policy. Adjustments are made as needed to enhance operational efficiency, ensure financial sustainability, and comply with the CityBus Title VI Program, which guarantees non-discriminatory access to transit services.

DRAFT

The Board oversees fare adjustments in alignment with the agency's strategic goals. Evaluations are based on:

1. Community mobility needs and regional transit integration.
2. Cost recovery goals and operational funding sustainability, with farebox recovery ratio as a key benchmark.
3. Equity considerations, including impacts on minority and low-income populations, in compliance with Title VI requirements.
4. Technological advancements in fare collection.
5. Industry best practices and peer agency comparisons.

Fare policies are reviewed periodically to ensure alignment with these priorities. Any changes must adhere to established policy principles and include a Fare Equity Analysis when required under Title VI regulations.

IV. Commitment to Public Engagement & Transparency

CityBus is committed to engaging the public in fare policy decisions through outreach efforts, stakeholder collaboration, and accessible communication. Fare changes will be implemented transparently, with a clear timeline and rationale provided to the public and community partners. Public participation will be conducted in accordance with the CityBus Title VI Program to ensure meaningful engagement, particularly for minority and low-income populations.

V. Policy Implementation & Review

CityBus staff are responsible for implementing fare policies in accordance with the strategic framework set by the Board. Regular assessments of fare revenue, farebox recovery ratio, and ridership trends will guide operational decisions. Policy updates will be made as necessary to align with financial sustainability and community mobility needs while ensuring compliance with Title VI non-discrimination requirements.

RE: Fare Structure Analysis & Recommendation for Public Hearing

---

As part of our comprehensive operations analysis (COA), RLS & Associates has conducted a *Fare Structure Analysis* to support our ongoing efforts. This analysis evaluated fare trends, peer system comparisons, and projected impacts on ridership and revenue under various fare change scenarios. CityBus staff concurs with RLS's recommendation and supports advancing the proposed Recommended Fare Structure for public input and adoption.

Background and Need for Change

CityBus has not adjusted fares in over 20 years, despite steadily rising operating costs. Since 2018, our operating cost per passenger trip has increased by 50 percent, while fare revenue has remained flat. Without corrective action, this growing gap will contribute to a budget shortfall that threatens agency stability and the continuity of service.

Although CityBus maintains one of the stronger farebox recovery ratios among peer systems (thanks to prudent cost control and contract service revenue) ongoing cost pressures can no longer be absorbed without a fare adjustment.

Key Features of the Recommended Fare Structure

- **Base fare restructured as a two-hour window fare**
  Riders purchase a single fare and gain unlimited boardings within a two-hour window from activation. This replaces the legacy one-way fare plus paper transfer and allows seamless connections or short round trips without an extra fare.

- **Expanded half-fare eligibility**
  Half fare remains available to seniors (65 and older), Medicare recipients, and people with differing abilities. It will be extended to youth ages 9 to 19 who are enrolled in school, replacing the current free fare for that age group and ensuring consistent affordability for students.

- **Launch of Masabi's EZFare mobile fare platform**
  In August 2025, CityBus, through NEORide, will implement EZFare, Masabi's Justride-powered, account-based ticketing (ATB) fare system. Riders will use a branded

mobile app or reloadable smartcard to pay as they go. Fare capping will ensure riders automatically receive the best value (1-Day or 31-Day) based on actual use, removing the need to purchase passes in advance and modernizing our fare collection processes.

- **Unlimited ride passes**
  Unlimited ride passes will be adjusted to including 1-Day and 31-Day at both standard and half-fare prices, and 6-Month passes. Half Fare 1-Day passes are a new offering and 6-Month passes (January through June, and July through December) will replace current semester passes offering year-round coverage over academic-year coverage.

- **Tokens and transfers eliminated**
  We will discontinue physical tokens and paper transfers in favor of the two-hour window fare model and digital fare media.

- **ACCESS fare pilot**
  ACCESS paratransit fares will remain at their current level ($2.00 per one-way trip) for a six-month pilot beginning in January 2026. During this period, we will assess ridership and demand impacts with the goal of evaluating whether aligning fixed-route and paratransit fares at the same price point better advances equity and accessibility across service modes.

- **Express route fare**
  Express route fare will be established at a rate that is closer to CityBus' per-trip cost and will be paid by the general public while riding express routes (affiliated riders will continue to ride express routes fare free with proper credential). Express route fare will follow the two-hour fare window model but will only be valid on express routes. Regular route fares and passes will not be accepted on Express routes.

Comparison of Fare Structures

The following tables are provided to parallel our current fare structure with the recommended fare structure.

Current Fare Structure

Regular Fare	$1.00 per trip
Half-Fare (65 or older, Medicare recipients, people with differing abilities)	$0.50 per trip
Roll of Tokens (10 tokens in each roll)	$7.50 per roll
Transfer	Included with one-way fare
Ivy Tech Students, Faculty, and Staff with valid photo ID	Fare-free
Children through grade 12 and under age 19	Fare-free
CityBus ACCESS Certified Rider	Fare-free on regular fixed routes
CityBus ACCESS One-Way Fare	$2.00 per trip
1-Day Pass	$2.00
31-Day Pass	$28.00
31-Day Half-Fare Pass (65 or older, Medicare recipients, people with differing abilities)	$14.00
Semester Pass	$99.00

Recommended Fare Structure

Regular Fare - Valid for 2 hours from activation	$2.00
Half-Fare - Valid for 2 hours from activation (65 or older, Medicare recipients, people with differing abilities, children aged 9 through 19 enrolled in school)	$1.00
Express Route Fare – Valid for 2 hours from activation on Express routes only	$5.00
Ivy Tech Students, Faculty, and Staff with valid photo ID	Fare-free
Children aged 8 and under with fare-paying rider	Fare-free
CityBus ACCESS Certified Rider	Fare-free on regular fixed routes
CityBus ACCESS One-Way Fare* (*Unchanged as 6mo pilot)	$2.00 per trip
1-Day Pass	$4.00
1-Day Half-Fare Pass (65 or older, Medicare recipients, people with differing abilities, children aged 9 through 19 enrolled in school)	$2.00
31-Day Pass	$50.00
31-Day Half-Fare Pass (65 or older, Medicare recipients, people with differing abilities, children aged 9 through 19 enrolled in school)	$25.00
Six Month Pass (Jan-June or July-Dec)	$178.00

Next Steps and Timeline

I recommend the Board approve and advance the Recommended Fare Structure to public hearings as outlined below:

- May 2025: public hearings regarding the Recommended Fare Structure will take place during the week of May 5th through 9th, at times and locations throughout our service area.
- July 2025: final Board action, following review of public input, to approve the Recommended Fare Structure.
- August 2025: first phase of implementation launching Masabi's EZFare account-based ticketing, fare capping, and transitioning to the two-hour window fare model under the current fare costs.
- January 2026: second phase of implementation adjusting fare costs as approved, providing the community with ample notice.

This two phase implementation approach ensures transparency, meaningful community engagement, and a smooth transition to a modern, sustainable fare system aligned with our mission and vision.

MEMO

CityBus GREATER LAFAYETTE

TO: Board of Directors

FROM: Bryan T. Walck, Chief Operating Officer

DATE: April 16, 2025

RE: Service Standards Policy

As CityBus continues to navigate financial pressures and prepare for a sustainable future, the development of an updated Service Standards policy is essential to guide our operational decisions. We have been proactive in recognizing the need for a high-frequency network to better serve our community. I am pleased to share a proposed policy that will serve as a strategic framework for planning, evaluating, and delivering transit services.

These standards are grounded in our mission to provide safe, reliable, and accessible mobility while being responsible stewards of public resources. They align service planning with our values of equity, efficiency, and adaptability.

Purpose of the Service Standards
The attached service standards document outlines expectations across several key areas:

- Fixed-route and demand-response service categories
- Service hours and frequencies
- Infrastructure and accessibility
- On-time performance targets
- Equity considerations
- Performance metrics and route evaluation criteria

These standards will guide CityBus operations and planning efforts, ensuring transparency and accountability while maintaining the flexibility to adapt to evolving needs.

Service Allocation Framework
To balance equity and efficiency in service planning, the revised model allocates:

- Approximately three-quarters of annual service hours to Core Routes, which prioritize frequency, reliability, and system connectivity;
- One-quarter to Local Routes, which ensure coverage in lower-density areas during peak demand periods.

Performance Metrics & Evaluation
To ensure services remain responsive and effective, the following passengers per revenue hour targets will be used to evaluate route performance and guide future adjustments. These figures are subject to

adjustment by CityBus staff as the agency's mission and vision evolve, as available funding fluctuates, or as other operational considerations or industry standards develop over time.

These metrics are in line with industry norms as outlined in the 2023 National Transit Summaries and Trends (NTST) Report, published by the Federal Transit Administration (FTA). This report provides comprehensive data and analysis on transit operations across the United States, including key performance indicators such as passengers per revenue hour. The report indicates that fixed-route bus services typically achieve passengers per revenue hour (PPH) in the range of 10 to 30, depending on urban density and service design. The full report is available at:

https://www.transit.dot.gov/sites/fta.dot.gov/files/2024-12/2023%20National%20Transit%20Summaries%20and%20Trends_1.2.pdf

Route Type	Passengers per Revenue Hour	Performance Level	Action
Core Routes	8–12	Low Performing	Investigate improvements
	12–16	Target Goal	Maintain
	16–30	High Performing	Monitor for sustainability
	30+	Exceeds Expectations	Assess for possible increased frequency

Route Type	Passengers per Revenue Hour	Performance Level	Action
Local Routes	0–4	Unacceptable	Consider eliminating or transitioning to CityBus FLEX microtransit
	4–6	Low Performing	Investigate improvements
	6–8	Target Goal	Maintain
	8–12	High Performing	Monitor for sustainability

These benchmarks will support ongoing evaluation, ensuring resources are allocated efficiently and that service adjustments are data-driven and community-focused.

Recommendation

I recommend the Board adopt the attached Service Standards policy as an internal tool to:

- Guide near-term service planning and operational decisions;
- Provide a transparent foundation for public communication;
- Inform future service expansion opportunities when funding allows.

Adoption of this policy will formalize our shared expectations and support a stronger, more responsive transit system for our community.

GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATATION

I. Introduction

CityBus is committed to providing safe, reliable, and efficient transit service to the Greater Lafayette community. These service standards establish a strategic framework for service planning and operations, ensuring equitable, efficient, and financially responsible transit services. Guided by CityBus' mission, this policy supports safe, reliable, and sustainable mobility while fostering accessibility and connectivity. By balancing service coverage with financial stewardship, CityBus aims to enhance the quality of life in our community while maintaining operational efficiency and embracing innovation.

Mission Statement

The mission of CityBus is to be a proactive community partner. The agency strives to improve the quality of life by operating safe, reliable, and environmentally friendly transit services and partnering in local economic development activities. With employees who take pride in their work, CityBus provides excellent customer service and offers efficient, convenient access to destinations throughout the Lafayette and West Lafayette community.

Our Vision

CityBus has an important role in making the Lafayette and West Lafayette community a better place to live, work, go to school, and visit. With safe, reliable, and convenient transit services, the agency will offer a viable transportation choice for residents, employees, and visitors.

- The agency will be recognized as a valuable resource for the community.
- The agency will provide high-frequency transit services in areas with greater densities.
- The agency will operate efficiently, giving taxpayers the best service possible for their investment.
- The agency will be a leader in transit-oriented development efforts.
- The agency will bring together developers, local governments, and planning agencies to address land use decisions that impact mobility.
- The agency will be a leader in bringing environmentally sound transit technologies to the Lafayette and West Lafayette community.

DRAFT

II. Purpose

These service standards provide a structured framework for planning and operational decisions, ensuring CityBus services align with the agency's mission, vision, and guiding principles. While this document establishes baseline service expectations, it cannot account for every operational scenario. Exceptions and variations should align with the overarching principles of accessibility, efficiency, equity, and financial responsibility. CityBus remains committed to continuously evaluating and adapting services to meet evolving community needs.

III. Fixed-Route Service Categories

CityBus fixed-route services are structured to balance network efficiency and access, ensuring that high-ridership areas receive frequent service while maintaining coverage for lower-density areas. This distribution does not include Express and Contract Routes, which are structured based on contractual agreement.

The agency operates three fixed-route service categories:

1. **Core Routes**: Approximately three-quarters of annual service hours will be allocated to Core Routes. These frequency routes form the backbone of the network and provide frequent and reliable service along key corridors, ensuring connectivity across the system.
    a. Weekdays: Every 20 minutes from 6:00 AM to 9:00 PM, higher frequency during peak hours is preferable.
    b. Saturdays: Every 20 minutes from 6:00 AM to 9:00 PM, with lower frequencies or restricted service hours on select routes during off-peak hours based on operational considerations.

2. **Local Routes**: Approximately one-quarter of annual service hours will be allocated to Local Routes. These coverage routes provide extended service to additional areas not served by the core routes but operate only during peak hours to support higher-demand time periods.
    a. Weekdays: Every 30-60 minutes during peak hours only, from 6:00 AM to 10:00 AM and 2:00 PM to 6:00 PM, with lower frequencies or restricted service hours on select routes based on operational considerations.

3. **Express and Contract Routes**: These routes are designed to meet the specific mobility needs of funding contractual partners, whether through express, loop, or local route configurations. These routes are intended to enhance the overall network, as provided in these standards.

IV. Demand-Response Services

In addition to the fixed-route network, CityBus operates demand-response service to enhance mobility for our community.

The agency operates two demand-response service categories:

1. **CityBus ACCESS**: Paratransit service operating within three-quarters of a mile of fixed routes during equivalent service hours, this service ensures accessibility for differently abled riders, following certification processes.

2. **CityBus FLEX**: Microtransit service operating as an on-demand transit option designed to serve designated geographic zones and time periods where fixed-route service is less practical.

V. Bus Stops & Infrastructure

CityBus optimizes bus stop placement to balance accessibility, convenience, and service efficiency. Stops are generally spaced between one-eighth and one-half mile, with closer spacing in high-density areas and more distance between stops in lower-density areas to improve travel times while maintaining accessibility.

CityBus prioritizes ADA compliance at as many stops as possible and is committed to enhancing accessibility systemwide. Shelters, benches, and other amenities are placed at high-ridership locations where they provide the greatest benefit to the most riders, with additional investments made in partnership with private entities.

VI. On-Time Performance & Reliability

CityBus is committed to delivering dependable transit services, maintaining an on-time performance standard of 85% for fixed routes, with arrivals no more than five minutes late and no early departures. Schedule adherence is regularly evaluated to accommodate travel times, passenger demand, and external conditions, ensuring operational consistency and reliability.

DRAFT

VII. Accessibility & Equity

CityBus ensures equitable transit access through ADA-compliant vehicles, ensuring all riders have access to safe and reliable transportation. Service modifications undergo Title VI analysis to assess potential impacts on minority and low-income populations, maintaining compliance with non-discrimination policies. Community engagement efforts prioritize outreach to underserved populations, incorporating public feedback into service planning to align with diverse mobility needs.

VIII. Performance Metrics & Evaluation

Service performance is measured through ridership productivity, cost efficiency, and customer feedback. Routes are evaluated based on:

1. Passengers per revenue hour to assess route productivity.
2. Cost per trip to measure financial efficiency.
3. Overall service utilization to ensure resources are allocated effectively.

IX. Conclusion

These service standards provide a structured approach to optimizing CityBus operations while ensuring equitable, efficient, and high-quality transit for the Greater Lafayette community. CityBus remains committed to delivering safe, reliable, and accessible transit services that enhance community mobility, connectivity, and economic vitality.

CEO REPORT TO GLPTC BOARD OF DIRECTORS

MEETING DATE: April 23, 2025

CEO

First, I would like to highlight what a great team of people we have here at CityBus. In January, my report to the Board included a list of items planned for the first quarter of the year. Here are results so far as we finished the first quarter:

Begin a community conversation about fare structure redesign	Scheduled for May
Begin installing new fare validators on the fleet	Location in the bus finalized, installation planned for this summer
Review the first draft of a service redesign	Done, stakeholder meeting scheduled
Establish key performance indicators for evaluating service and fare changes	In process
Begin design of a new hydrogen fueling station	Done, construction scheduled to start in June
Advocate for additional state funding and creation of a local funding option	Done, results pending end of legislative session
Begin a financial audit with a new audit firm	Started, initial document requests complete, on-site scheduled
Prepare for a Triennial Review from FTA	Done, initial document requests complete, on-site scheduled for July
Apply for a RAISE grant for a feasibility study for BRT	Done, expecting to hear results in July
Apply for Bus and Bus Facility funds for new transit hub(s)	Waiting for the Notice of Funding Opportunity, FTA plans to release shortly.

Out of the ten items, nine are either complete or as far along as can be, and the last one is in process. None of this is possible without our dedicated staff keeping their eye on the ball. The remainder of the year, and the next twelve months, will have the same intense work load, as we work on fares, the COA, and the hydrogen fueling station.

As the state budget is being finalized as this report is being written, I will have an update for the Board on the impacts of the new budget at the Board meeting. I should also know by the Board meeting if we were able to secure a new source of local funding.

COO

This month has been pivotal as we continue aligning operations with financial realities and prepare for a busy period ahead. In the coming months, we will begin implementing the redesigned network and updated fare structure identified through the Comprehensive Operations Analysis (COA), supported by public hearings and outreach.

Staff have worked closely with RLS & Associates to refine the network, recommend service hour reductions, and develop a draft fare structure. We also prepared a Fare Policy and a Service Standards Policy for the Board's consideration, offering a framework to guide current and future service decisions.

I presented at the Greater Lafayette Commerce Diversity Roundtable to share our Keep CityBus Moving 2030 plan, highlighting financial challenges, equity-focused planning, and our commitment to safe and efficient service.

Following the loss of the Purdue agreement, we are adjusting operations while maintaining our commitment to serving the broader community as effectively as possible.

We launched a pilot with Luminator to test video mirror technology on bus 8002 and are assisting with efforts to obtain a BMV exemption, which would allow use of this innovation throughout the state.

Staff also attended the APTA Mobility Conference in Austin, Texas, gaining insights from agencies facing similar challenges. Lessons on network redesign, budget response, and public communication will support our work in the coming months.

FINANCE

- The team has successfully closed the book for 2024. This year we have done extra work than a regular year end, which included reconciling all balance sheet accounts for prior years. The team was very proficient and hardworking in taking on the extra workload. All prior year's adjustments have been posted and communicated with the auditors.
- The team has been diligently working with FTA to correct prior year grant drawdowns. We followed FTA's instructions to return the funds for any incorrect drawdowns made in past years. Although the process has been slow, we expect the return be confirmed in two weeks. Hopefully, FTA will approve our grant budget adjustments soon, so that we can maintain an accurate/effective grant record going forward.
- Q1 grant FFRs and MPRs have been submitted on time.
- Working with the executive team to analyze our financial outlook under the changing revenue situation.
- Started to work on annual NTD reports for the company.

HUMAN RESOURCES

- Hired a Parts Supervisor for the Fleet Department, started April 14th.
- Hired a Safety/Security Specialist reporting through HR, started April 21st
- Collected applications for a new operator class to begin in May.
- Attended the FTA's annual Drug and Alcohol Program Training

MAINTENANCE

- 8003 transmission replacement

- 0915 Engine work
- 5008 complete repaint
- 8001 Center Axle brake replacement

OPERATIONS

- On 4/14/25 CityBus had two maintenance employees train and pass their physical driving test in Indy, which qualifies them for their class B CDL. Congratulations to Jeffrey Coats and Taylor Beard.
- Currently working on next driver training class to start 1st week of May.
- Had Luminator install new video mirrors on 4/10/25. Presentation to supervisors and trainers went well and was well received. Bus is currently out in service and getting mixed reviews. We are looking for more driver feedback before making any judgements.

CUSTOMER EXPERIECE

- The bus stop signage and poles project is moving forward. Route 1A has been completed. Route 2A and 2B are next on the list.
- The Comprehensive Operations Analysis (COA) with RLS & Associates, Inc. is ongoing.
- Fare Study Community Forum meetings are now scheduled and booked for the first full week of May
- Continuing the implementation of both HopThru and Masabi contracts. These contracts will bring improved automatic passenger count and fare collection technologies to CityBus.
- Continuing to work with the Purdue Center for Regional Development through the Wabash Heartland College & Community Collaboration Initiative to bring vanpooling services that are to Tippecanoe Country to surrounding counties.
- Enhancing customer experience for our riders and drivers with the return of our travel training program, increased amount of social media posts and testimonials.

INFORMATION SYSTEMS

- We are still working with Hopthru to resolve APC certification issues. System changes were made the week of 3/10. We are waiting for enough data to be collected to determine if additional action is needed. The goal is to submit for certification by the end of April.
- Reviewing technology hardware and contract adjustments related to fleet reductions associated with potential COA service changes and loss of Purdue service in fall 2025.
- Attended TripSpark Ignite user conference 4/14-4/17. This annual conference provides the opportunity to learn about product features and roadmaps, as well as the ability to share information with other agencies related to best practices and lessons learned.
