GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 701

DATE: May 28, 2025
TIME: 5:00PM
PLACE: 1250 Canal Rd. Lafayette, IN. 47904 Conference Room
MEETING CHAIR: Mr. Mike Gibson

AGENDA

Item

1. Communications and Announcements

2. Public Comment
   2.1. Comments on the Agenda – 5 minutes

3. Review and Approval of Agenda Items and Minutes
   3.1. Review and Approval of Agenda of Meeting No.701 held on May 28, 2025 (pg.1)
   3.2. Review and Approval of Minutes of Meeting No.700 held on April 23, 2025 (pg.2)

4. Old Business
   4.1 Purdue Service and Off-Campus Update

5. New Business
   5.1. Approval of taking the Reimagine CityBus Plan to the public (Exhibit 1 pg.5)
   5.2. Fare Proposal Feedback Update
   5.3. Legislative Conference Update
   5.4. Consideration of claims list numbering 40675 through 40759, in the amount of $810,568.56 (pg.9)
   5.5. Consideration of payroll for April 1, 2025, through April 30, 2025, in the amount of $973,193.43 (11)

6. Board and Staff Reports
   6.1. Chief Executive Officer Report (pg.12)

7. Public Comments
   7.1. 3 minutes per speaker

8. Adjournment
   8.1. Next meeting is Wednesday, June 25, 2025

GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 700
MEETING MINUTES

DATE: April 23, 2025
Present: Mike Gibson, Chair
Board James Blanco, Secretary
Julie Ginn
Tino Atisso
Joel Wright

Present: Bryan D. Smith: Chief Executive Officer
Staff Joanne Zhang: Chief Financial Officer
Bryan Walck: Manager of Customer Experience
Ron Peters: Operations Manager
Shawn Coffman: Fleet Manager
Dusty Sturgeon, Human Resources Administrator
Lon Lucas: Customer Experience Manager
Shelby Yeaman: Executive Assistant/Project Manager
Brian Karle: Attorney

Guests: David Kopp, Geno Christofanelli

Chair, Mr. Mike Gibson, called meeting No.700 to order at 5:00PM in the GLPTC Board Room, 1250 Canal Road.

COMMUNICATIONS & ANNOUNCEMENTS

Mr. Bryan Smith gave a shoutout to Mr. Randy Anderson, Information Systems Manager at CityBus, for his 2nd year recognized by TripSpark as being an innovator. This is a huge accomplishment, and we are all very proud of him.

PUBLIC COMMENT

REVIEW AND APPROVAL OF AGENDA ITEMS AND MINUTES

Ms. Julie Ginn made the motion to approve the Agenda of Meeting No.700 held on April 23, 2025. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Ms. Julie Ginn made the motion to approve the Minutes of Meeting No.699 held on March 26, 2025. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

OLD BUSINESS

CityBus was not chosen to provide transit service for the 2025-2026 academic year on Purdue Universities campus but are still in communication for both summer and off campus service. The plan is to continue holding meetings throughout the summer and

will work to continue giving the best possible service to the faculty, staff, and students at the University.

NEW BUSINESS

Mr. Joel Wright made the motion to approve the New Fare Policy. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Smith mentioned CityBus did not have a fare policy as a stand-alone, so it was important to get one in writing that follows the mission, vision, and goals of the agency. This is a big step in providing reasoning behind the restructuring. This is not a request to approve the policy, but rather to get approval to take the policy to the public, get public comment, and continue to work until we have a finalized document.

Mr. James Blanco made the motion to approve the New Fare Structure Draft. Mr. Tino Atisso seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

Mr. Bryan Smith presented a PowerPoint to the Board that was put together by both the RLS team and CityBus. The information presented will be the information taken to the public when discussing the new possible fare structure. A question was asked whether fare capping will be used with semester passes, and the answer to that is no it will not. Fare capping will begin in August with the new Masabi validators, and a potential fare increase will begin in January of 2026. Mr. Tino Atisso inquired whether we will have a system to gather public comments and feedback. Mr. Smith said we will have pencils and paper, and QR codes directing individuals to an online portal to leave feedback and will have CityBus representatives at all public meetings to gather feedback.

Mr. Tino Atisso made the motion to approve the Service Standards Draft. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

CityBus did not previously have a service standards draft, so one needed to be created. Through RLS's professional advice, this draft will show that 75% of our hours will be focused on high demand high frequency areas, while 25% will be focused on the low demand low frequency areas. This will also help us start to gather more detailed data, which also follows benchmark standards per the FTA, which will allow us to be as efficient as possible.

The Board considered approval of claims list numbering 40549 through 40674, in the amount of $802,649.57. Mr. James Blanco made the motion to approve the claims list. Ms. Julie Ginn seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

The Board considered approval of payroll for March 1, 2025, through March 31, 2025, in the amount of $985,460.25. Mr. James Blanco made the motion to approve payroll. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays.

BOARD AND STAFF REPORTS (CEO REPORT)

Mr. Bryan Smith mentioned how grateful and blessed he is to work with staff that is willing to go above and beyond for this agency.

The next 12 months will be very busy with the redesign introduction and possible fare increase.

The State Budget update is that SB-1 has both property and local income tax decreasing within the next 3 years by about $600,000. Sunsetting local income tax in 2028 will be eliminated, which is what paid for the “trolly” service which is now known as the connector. Without being able to source funds to run this route, it may need to be eliminated in 2027. Leadership at the State House is not interested in increasing other taxes and the likelihood of us running standalone local income tax is very low. This means that by going into 2026 our shortfall has increased. There is also a possibility of PMTF funding decreasing for the next 2(two) fiscal years with the possibility of taking back some 2025 dollars.

SB-1 did grant cities to run their own income tax citywide which does open up a few different plans that Mr. Smith is working hard to figure out how to get a sustainable income package for CityBus.

PUBLIC COMMENTS

Mr. Joel Wright inquired about the loss of the Purdue Contract and what that does to CityBus revenue. Mr. Bryan Smith answered that it should be revenue neutral due to the overtime paid, for the short term. The long-term effects are that it can affect our numbers reported to FTA, although those numbers are based on a formula of number of passengers and miles driven. Our hope is with this ratio the numbers balance out and it is not much of a difference.

ADJOURNMENT

With there being no further business to be transacted, Mr. Joel Wright made the motion to adjourn. Mr. Tino Atisso seconded the motion. The motion was carried by a vote of 5 ayes and 0 nays. The next regular Board Meeting is scheduled for May 28, 2025, at 5:00PM, in the GLPTC Board Room, 1250 Canal Road.

CityBus Reimagined

Overview

The CityBus Comprehensive Operations Analysis (COA) outlines the assessment of existing services and the public engagement and demographic analysis.

CityBus has developed modifications to the existing routes, schedules and bus stops with the goal of addressing the priorities of its customers, staff and community. The recommended changes are currently under final review.

Key Findings and Recommendations

- Identifies opportunities for streamlining routes, improving on-time performance and rider convenience.
- Recommends a reimagined service design with "core" routes that provide high frequency and "local" routes that add coverage. All routes feed into a network of five strategically located transfer points.

Goals and Objectives

Customer Service

Provide the best service to the most people possible

Community Support

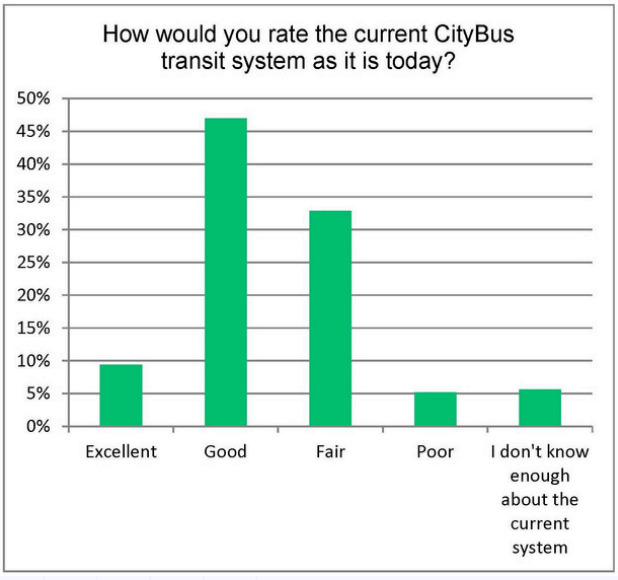

Provide equitable service and be good partners for economic development

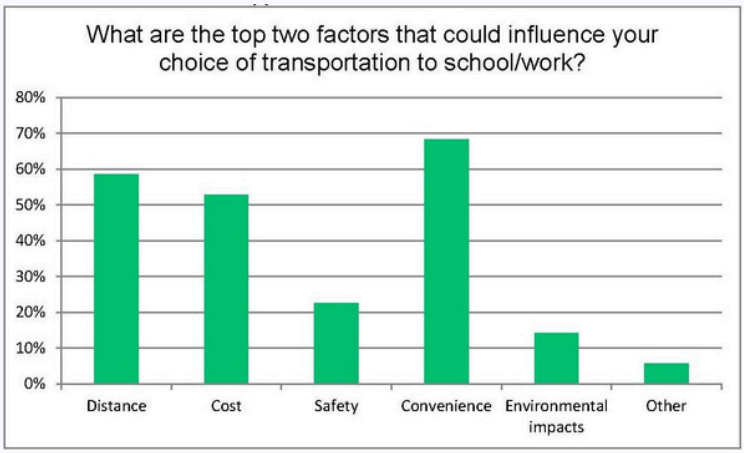

Sustainability

Improve within a sustainable budget to ensure the future of service to the Greater Lafayette community

Customer Satisfaction

Most Important Factors in Choosing Your Transportation

Guiding Objectives

The COA planning process incorporated research into existing demographic and socio-economic conditions, route utilization analysis and public engagement activities. Route recommendations are based on the following foundational objectives:

- **Realign routes to provide more direct rides to destinations.** CityBus operates on a pulse system with nearly all routes ending at the CityBus Center (CBC) on a pulse schedule that allows passengers to transfer to other routes, as needed. The analysis questioned if the pulse system is still the most effective way to serve the community, given the locations of trip generators, current travel patterns of the local residents, and planned or projected land use changes in Greater Lafayette.
- **Maintain or improve route frequency.** CityBus strives to maintain 30-minute frequencies or improve to even more frequent service, especially during peak hours of operation, for as many routes as possible. Frequent service improves convenience for the riders.
- **Promote balanced service.** CityBus has examined the demographic and socio-economic conditions of the community and its riders. The transit system strives to provide equitable service for everyone in the service area. All recommended changes considered equity impacts on minorities/non-minorities, people of all ages, and individuals with disabilities.
- **Maintain service affordability**. CityBus has not increased fares for over 20 years even as operating expenses have inflated. The system is considering a new fare structure that will help CityBus close the gap between operating expenses and revenues. The new structure includes new fare pass options and a pay-as-you-go fare capping option that will benefit frequent riders.
- **Operate within available and sustainable financial resources**. All recommended service change options consider the rider first and foremost. CityBus has carefully examined the financial reality and has determined that service changes will involve reductions in span of service at least until such time that additional revenues can be identified. With all changes, CityBus strives to maintain the best service for the most people within a sustainable budget.

The recommendations include service improvements that respond to the rider's needs and are based on **cost reduction** and **cost control** strategies. These strategies aim to reduce expenses by minimizing unnecessary or inefficient route segments and replacing them with more efficient routes. CityBus must consider the cost reduction and control approach unless opportunities for additional revenue improve.

Span of Hours Changes

Under the cost-reduction scenario, CityBus must reduce its span of hours. This option is presented with significant reluctance; however, it is the most impactful way to sustain the most service overall. Under this scenario, CityBus will continue operating its existing span of weekday and Saturday hours, but will eliminate Sunday service on all routes. In 2024, CityBus operated eight routes on Sundays.

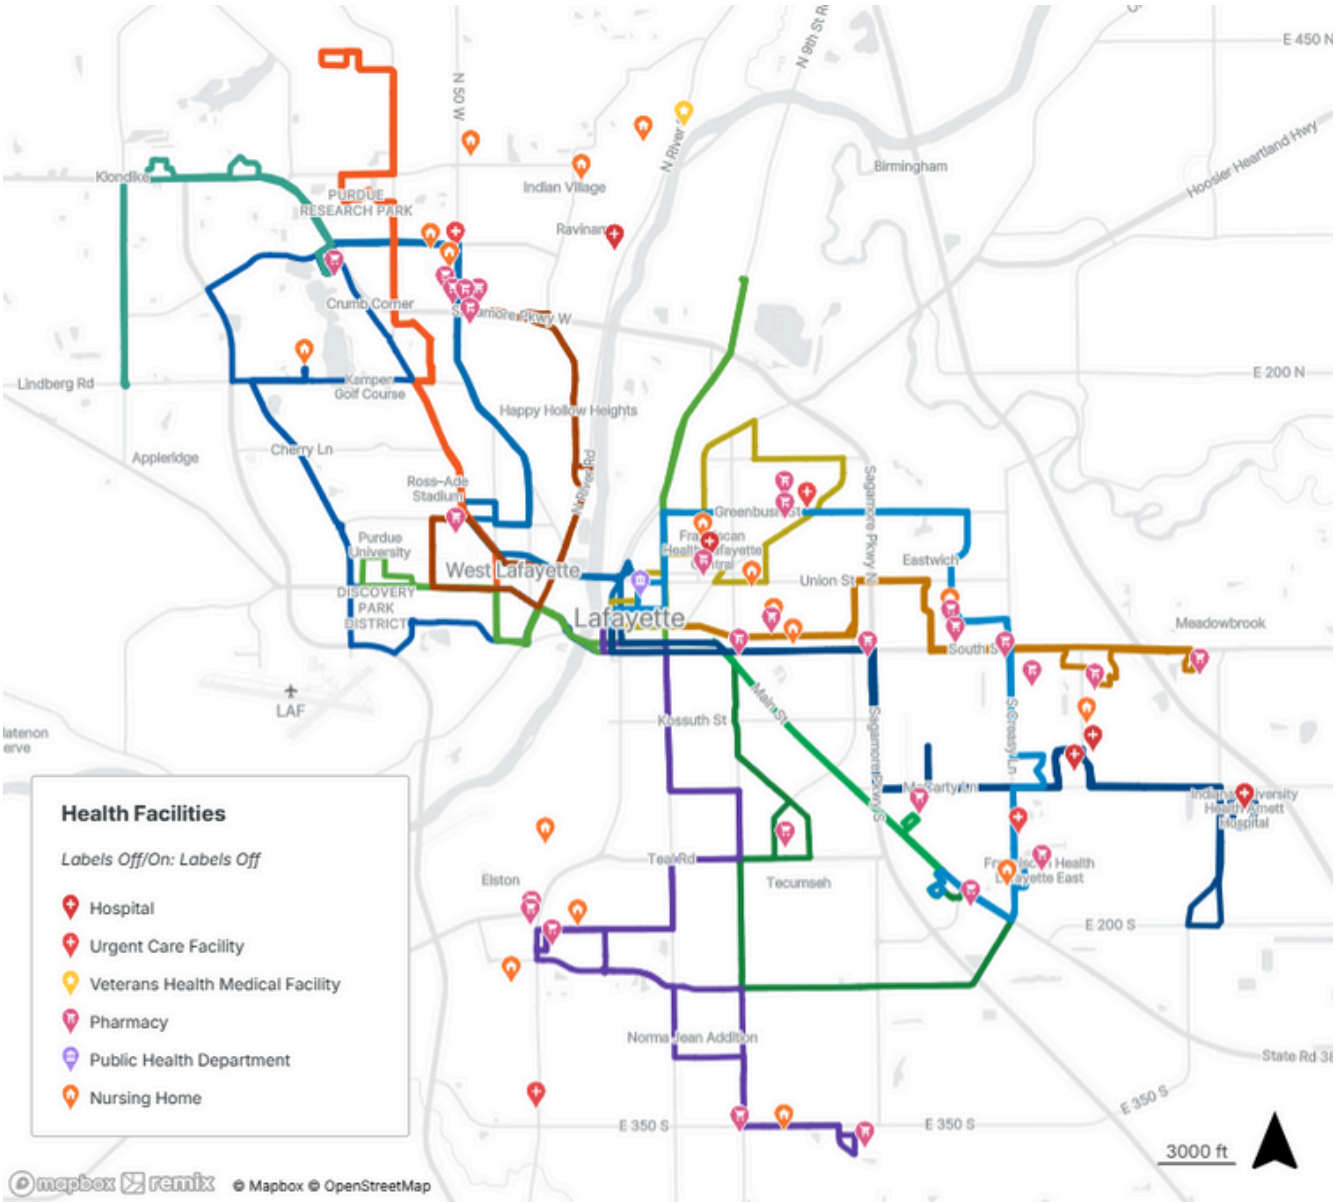

Elimination of Sunday service in combination with the route alignment changes in Option 1 reduces total revenue hours by nearly 16 percent and reduces operating expenses by approximately 17.21 percent. In Option 2, these changes save 18% to 32% and put CityBus in a sustainable financial position. In 2024, Sunday service provided approximately 70,850 trips. Most of those trips will be lost because of the reduced span of hours; however, some passengers may be able to complete their Sunday trips on other days of the week. Average trips per hour of operation on Sundays, by route, ranges from 45 to 551. By comparison, average trips per hour of operation on weekdays, by route, ranges from 171 to 3,706.

Option 1: Modest Changes to the Existing System

The Option 1 scenarios are summarized below. Exhibit 1 is a map illustrating the proposed route structure under Option 1 with the location of health facilities and shopping areas identified. Routes in the proposed structure serve most of the health care and grocery locations in the Taxing District. The cost-control aspects of Option 1 include

- Combining Routes 2A and 2B into one route. During peak hours the route may require an additional vehicle to meet capacity needs
- Route 3 stays on S. 18th St. and Brady Lane to improve on-time performance while still serving popular destinations.
- Route 4B has a slight reroute through campus
- Route 5 ends just north of Sagamore Parkway with a turnaround at/near Myrtle Drive. No route service to Indiana Veterans Home.
- Combining Routes 6A and 6B into one route. Serves less people within a ½ mile radius but improves connectivity and on-time performance.
- Changing the Route 9 frequency to 60 minutes all day.
- Route 23 will travel to Tippecanoe County Community Corrections only during peak hours.
- Cost-reduction aspects of Option 1 include reducing the span of hours by eliminating Sunday service.

Exhibit 1: Modest Changes - Cost Reduction Scenario

Option 2: A Reimagined Network to Streamline Routes and Improve Productivity

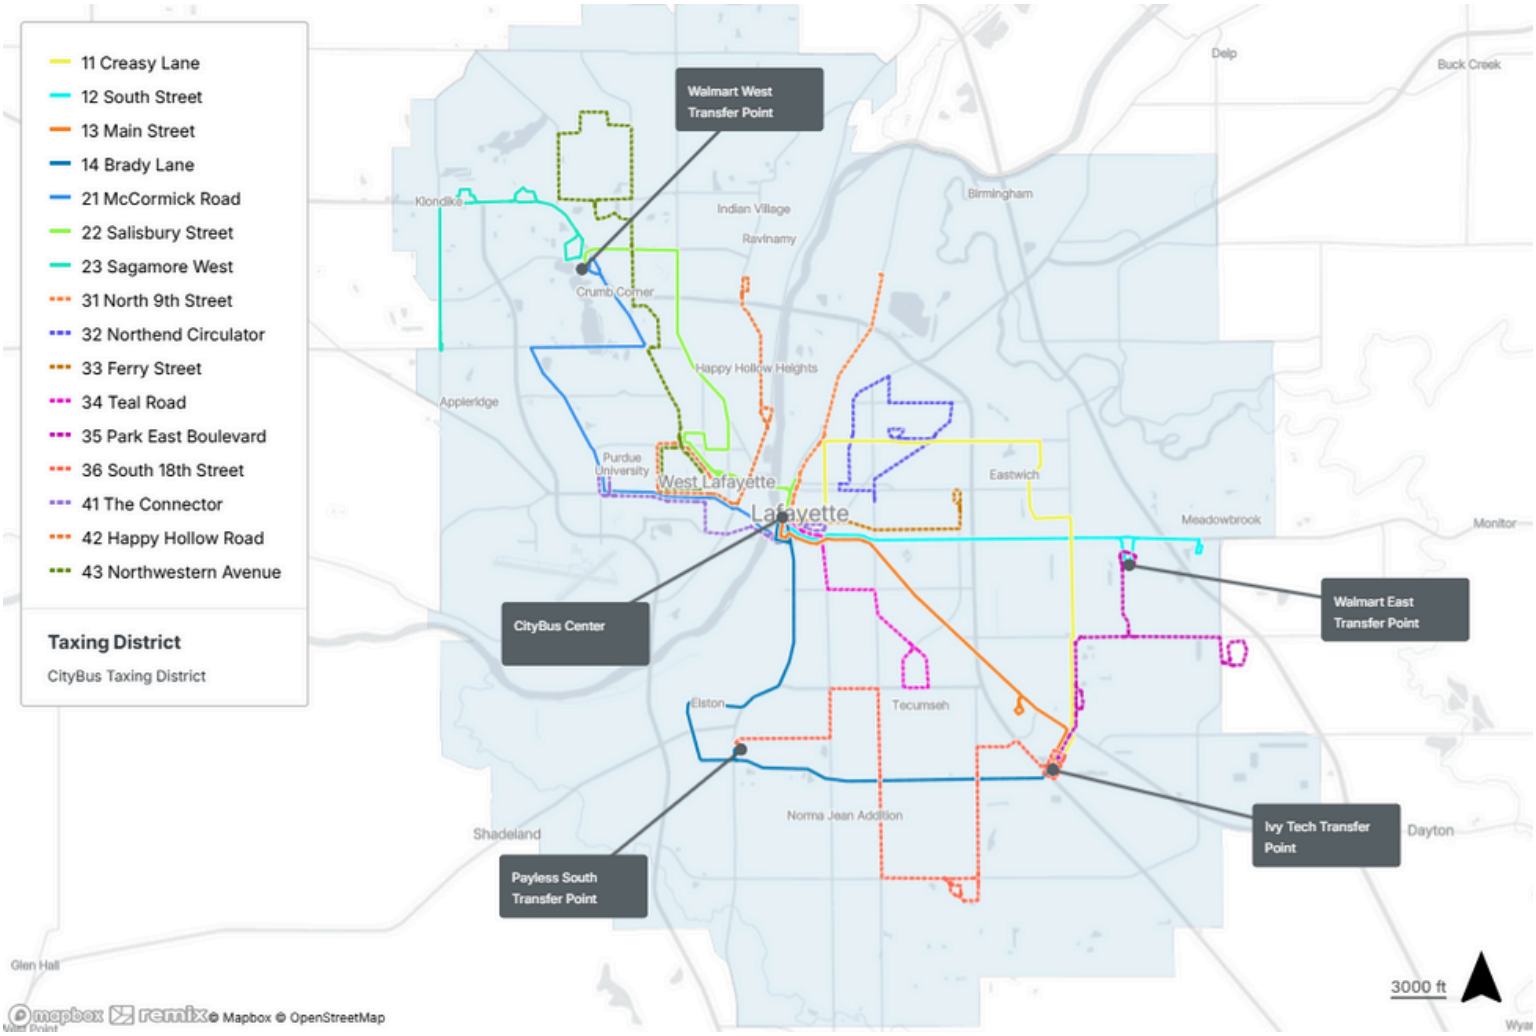

Option 2 takes a fresh approach to the entire CityBus network by implementing multiple transfer points strategically located across the service area and connecting the transfer points with routes that transport passengers within their neighborhood or offer a quick transfer to anywhere in the service area. The Option 2 scenarios are summarized in the tables and text that follows.

The cost-control aspects of Option 2 include designing a combination of "core routes" and "local routes."

- The core routes (depicted as solid lines) serve the areas with the highest density of people and popular destinations and connect to multiple transfer points, including the CityBus Center (CBC), with a high frequency of service.
- Local routes (depicted as dashed lines) add coverage and connect neighborhoods and transfer points.
- The combination of core and local routes with multiple transfer points will reduce travel time for the rider and promote more direct access from point to point with less frequent need to travel downtown for a transfer. Transfer points include:
  - CityBus Center
  - Walmart West
  - Walmart East
  - Ivy Tech
  - Pay Less (Beck Ln.)

Cost-reduction aspects of Option 2 include reducing the span of hours on weekday evenings to and Saturdays to **6:00 PM or 9:00 PM and eliminating Sunday service**. The reduced span of hours is balanced by direct **routes with increased frequency of service to every 15 or 20 minutes on core routes with 30-minute frequencies on local routes, and/or offering peak/off-peak hours for core routes and local routes.**

Exhibit 4: Option 2 – A Redesigned CityBus Network with New Transfer Points

CITY BUS --- CLAIMS LISTING FOR
APRIL 24, 2025 THROUGH MAY 28, 2025

Claims UNDER $20,000 (For Board to select 5 or more for audit)

CLAIM#	VENDOR NAME	CLAIM REASON	AMOUNT
40675	FRONTIER	UTILITIES	$383.50

CEO REPORT TO GLPTC BOARD OF DIRECTORS

MEETING DATE: May 28, 2025

CEO

Senate Bill 1 has passed, and our preliminary analysis of the law is that we will see a reduction of ~$600,000 in property tax revenue over the next three years. We also have an agreement with the Cities and County to receive ~$900,000/year in Local Income Tax (LIT) funds. That agreement will now end as of 2028. We are still projecting a budget shortfall for 2026 (if we do not make any service cuts) of $3M, which is now ~$3.2M. The fare changes should help offset this. This will also inform the choices we make with the COA. We were able to get the state law changed for CDL operators so starting July 1, 2025, we can hire and train 18–20-year-olds as bus operators.

The hydrogen fueling station will begin construction this summer, with completion planned to coincide with delivery of the fuel cell buses.

The APTA Legislative conference was informative. We were able to hear from both the FTA Acting Administrator Tariq Bokhari and from Secretary of Transportation Sean Duffy in person. They were both excited about the possibilities that transit provides. We have extended invitations to both Senator Young and Banks and Congressman Baird to visit our facility, or we could meet them at a district office. We made connections with staff at all three offices and will be able to request letters of support from each for grant applications.

DOT announced funding opportunities for the 2025 Low/No Program and Bus/Bus Facilities Program. These are the same ones we received grants from for the hydrogen fuel cell project. The also announced funding opportunity for a Regional Investment Accelerator using the TIFIA loan program. We are reaching out to INDOT to see if they are applying, and how we might partner with them on projects for our area.

COO

May has been an energizing and collaborative month across the organization as we continue preparing for major changes and building momentum in key areas.

CityBus was proud to sponsor and participate in Greater Lafayette Commerce's 2025 Diversity Summit, which brought together local and national voices, including keynote speaker Kwame Christian. He did a presentation on how to have difficult conversations to promote inclusion and equity throughout our community.

The COA Steering Committee met to review potential route network design options and is preparing a recommendation for Board consideration. Conversations with stakeholders about transfer points in a future network are ongoing, with an emphasis on ensuring locations are functional in the short term while also supporting potential future transit-oriented development (TOD).

We reached a major milestone with the approval of our interlocal agreement with Carroll County, allowing CityVan vanpooling services to operate in all contiguous surrounding

counties.

Our community engagement process around the proposed fare structure is well underway, with a mix of virtual and in-person meetings, along with a public survey. Simultaneously, department heads and key staff have been participating in multiple train-the-trainer sessions with Masabi in preparation for the upcoming launch of our EZFare JustRide system.

We continue to explore innovative workforce development efforts. Several department heads met with local and international representatives from ATU to discuss how to best launch the operator mentorship program. The goal is to improve recruitment, retention, morale, and peer support among operators.

Finally, I recently shared a message that will become a larger part of our operations moving forward: “Be Here. Be Safe. Be Kind.” These three principles reflect the core of who we are and how we serve, and they will guide our daily work through this period of transition and beyond.

As always, I want to recognize the dedication of our frontline and support staff for making all of this progress possible. Their commitment is the foundation of everything we do. We are also grateful for the leadership of our CEO and the continued support of the Board.

FINANCE

- NTD annual report prepared and submitted.
- Reviewed current federal grants status and developed 2025 federal grant strategy. Sent the strategy file to FTA. The team started to execute the plan.
- Reviewed vendor packet status and keep the process going with Customer Experience team.
- Submitted INDOT Q1 report.
- Requested state PMTF fund partial reimbursement.
- Federal grants quarterly FFR/MPR submitted.
- Prepared semiannual DBE report and submitted it to Trams on time.
- Applied for INDOT 5339 grant and received approval for one bus purchase.
- Prepared for annual financial audit and it is currently ongoing.

HUMAN RESOURCES

- Attended Diversity Summit at Ivy Tech
- Interviewed and onboarded candidates for the bus operator class that began 5-19-25.
- Attended training for: Conflict Management and Resolution, Crisis Communication for Transit Managers, and Violence in the Transit Workplace - Prevention, Response and Recovery

MAINTENANCE

- 804 front brakes.
- 1903 rear axle brakes and planetaries
- 5007 body repair
- 6006 repaint

OPERATIONS

- The new training class started May 19th with 6 (six) potential drivers in the session.
- Starting to interview for a Street Supervisor Position to add to our resources.
- Summer road closures and detours are popping up all over town creating havoc for dispatch and street supervisors. Dispatch and supervisors are working hard to keep operators up to date and buses moving.
- We had an end of the academic year cookout for all employees. We take this time each year to thank everyone for another good academic year and look forward to a great summer.

CUSTOMER EXPERIECE

- The bus stop signage and poles project is moving forward. Route 1A, 2A and 2B have been completed. Route 3 is nearly finished. Flagging for 4A, 6A and 7 have been completed.
- The Comprehensive Operations Analysis (COA) with RLS & Associates, Inc. is ongoing.
- Fare Study Community Forum meetings are completed. Data intake is now underway.
- Continuing the implementation of both HopThru and Masabi contracts. These contracts will bring improved automatic passenger count and fare collection technologies to CityBus.
- Continuing to work with the Purdue Center for Regional Development through the Wabash Heartland College & Community Collaboration Initiative to bring vanpooling services that are to Tippecanoe Country to surrounding counties.
- Enhancing customer experience for our riders and drivers with the return of our travel training program, increased amount of social media posts and testimonials.

INFORMATION SYSTEMS

- We are still working with Hopthru to resolve APC certification issues. We continue to work through counting limitations. An update to the Streets application is expected by the end of May that will allow for validation of the old version APCs. The goal is to submit for certification by the end of June.
- With the planned consolidation of Access and Fixed Route dispatch teams, we are evaluating the procurement of consoles for the dispatch center. A decision is expected by the end of June.
- Attended Modular AVL vendor product evaluation meeting for members of NeoRide.

- Remodeling of room for IT Specialist has been completed. The room will provide centralized storage and troubleshooting location of bus technology.

Apr 2025
