GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 702

DATE: June 25, 2025
TIME: 5:00PM
PLACE: 1250 Canal Rd. Lafayette, IN. 47904 Conference Room
MEETING CHAIR: Mr. Mike Gibson

AGENDA

Item

1. Communications and Announcements

2. Public Comment
   2.1. Comments on the Agenda – 5 minutes

3. Review and Approval of Agenda Items and Minutes
   3.1. Review and Approval of Agenda of Meeting No.702 held on June 25, 2025 (pg.1)
   3.2. Review and Approval of Minutes of Meeting No.701 held on May 28, 2025 (pg.2)

4. Old Business

5. New Business
   5.1. Approval of the new Reimagine CityBus route structure (Exhibit 1 pg.5)
   5.2. Approval of the CTE Scope of Work for 2024 Low/No (Exhibit 2 pg.11)
   5.3. Approval of TIP Amendment with addendum (Exhibit 3 pg.20)
   5.4. 2024 Audit Report Results (Exhibit 4 pg.21)
   5.5. Consideration of claims list numbering 40761 through 40850, in the amount of $1,251,492.97 (pg.24)
   5.6. Consideration of payroll for May 1, 2025, through May 31, 2025, in the amount of $1,418,350.46 (pg.26)

6. Board and Staff Reports
   6.1. Chief Executive Officer Report (pg.27)

7. Public Comments
   7.1. 3 minutes per speaker

8. Adjournment
   8.1. Next meeting is Wednesday, July 23, 2025, at 1250 Canal Road.

GREATER LAFAYETTE PUBLIC TRANSPORTATION CORPORATION
BOARD MEETING NO. 701
MEETING MINUTES

DATE: May 28, 2025

Present: Mike Gibson, Chair
Board James Blanco, Secretary
Julie Ginn
Tino Atisso
Ben Murray
Angel Valentin (Virtual)
Joel Wright

Present: Bryan D. Smith: Chief Executive Officer
Staff Bryan Walck: Chief Operating Officer
Joanne Zhang: Chief Financial Officer
Ron Peters: Operations Manager
Shawn Coffman: Fleet Manager
Dusty Sturgeon, Human Resources Administrator
Lon Lucas: Customer Experience Manager
Shelby Yeaman: Executive Assistant/Project Manager
Brian Karle: Attorney

Guests: David W., Geno C., Adam Bradley, Laura Brown

Chair, Mr. Mike Gibson, called meeting No.701 to order at 5:00PM in the GLPTC Board Room, 1250 Canal Road.

COMMUNICATIONS & ANNOUNCEMENTS

Mr. Bryan Smith introduced our new Safety and Security Specialist, Adam Bradley. Mr. Bradley has an extensive background in safety and security both locally and throughout. We are very excited to have him as part of our team and cannot wait to see what all he does for CityBus.

PUBLIC COMMENT

REVIEW AND APPROVAL OF AGENDA ITEMS AND MINUTES

Ms. Julie Ginn made the motion to approve the agenda of meeting No.701 held on May 28, 2025. Mr. Ben Murray seconded the motion. The motion was carried by a vote of 6 ayes and 0 nays.

Mr. Ben Murray made the motion to approve the minutes of meeting No.700 held on April 23, 2025. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 6 ayes and 0 nays.

OLD BUSINESS

Purdue University reached out about summer passes. They originally asked to get them for free, which they were told isn't a possibility, and although they are not paying for them, they did offer and help to advertise the passes. We, as of the board meeting, have sold 329 passes at $84 each. This brings in revenue we've never had before. Mr. Smith also mentioned that there is no special price for the summer passes, it is three (3) 31-day passes added up to get that cost.

We are also in discussion about the 2025-2026 school year off campus access and what that will look like. Our goal is to have a decision made by June, with Purdue, but not necessarily a finalized contract. That way we can start working on details and getting everything finalized and communicated to all parties prior to the start of the academic year.

NEW BUSINESS

Ms. Julie Ginn made the motion to approve taking the Reimagine CityBus plan to the public. Mr. Ben Murray seconded the motion. The motion carried by a vote of 7 ayes and 0 nays through a roll call.

Mr. Bryan Smith let the board know we are hoping to implement the new route redesign in August, so CityBus will be taking what is approved to the public this month and will be bringing a final decision back for board approval at the June board meeting. Ms. Laura Brown went over her PowerPoint, answering any lingering questions. The board reviewed all three (3) options again, and Mr. Smith requested the board vote to take option two (2) to the public. This is his vision for 'CityBus Reimagine' with a complete route restructure, which will, when budget allows, help expand CityBus more than what the current route structure can currently do.

May 5th started the CityBus public input sessions on the potential new fare structure. These sessions, although not highly attended, CityBus received 90 survey responses, and 66 comments, which will be taken into consideration when making final decisions. CityBus will be bringing a final decision to the board to vote on in July.

Mr. Ben Murray commented that he'd like to see numbers on the impact of how many children under the age of 18 ride and what charging them would look like. Mr. Murray would like to see, if possible, those under 18 continue to ride free instead of half price fares.

Mr. Mike Gibson, Mr. James Blanco, and Mr. Bryan Smith gave a brief update on how the Legislative Conference went. There was a lot of insight on where transit finances are heading, had Representatives, Senators and Secretaries in attendance with some who spoke. The team spoke with Congressman Baird, Senator Young, and Senator Banks staff while there as well.

The Board considered approval of claims list numbering 40675 through 40759, in the amount of $810,568.56. Mr. James Blanco made the motion to approve the claims. Mr.

Tino Atisso seconded the motion. The motion was carried by a vote of 6 ayes and 0 nays through a roll call.

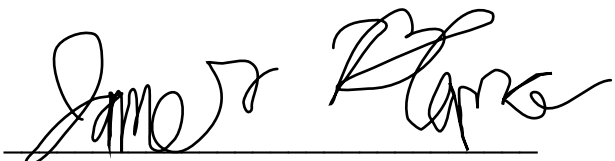

The Board considered approval of payroll for April 1, 2025, through April 30, 2025, in the amount of $973,193.43. Mr. James Blanco made the motion to approve payroll. Mr. Joel Wright seconded the motion. The motion was carried by a vote of 6 ayes and 0 nays through a roll call.

BOARD AND STAFF REPORTS (CEO REPORT)

PUBLIC COMMENTS

ADJOURNMENT

With there being no further business to be transacted, Mr. Joel Wright made the motion to adjourn at 5:54PM. Mr. Tino Atisso seconded the motion. The motion was carried by a vote of 6 ayes and 0 nays through a roll call. The next regular Board Meeting is scheduled for Wednesday, June 25, 2025, at 5:00PM, in the GLPTC Board Room, 1250 Canal Road.

Mr. James Blanco
CityBus Board of Directors

6/12/2025
Date:

CityBus Reimagined

Overview

The CityBus Comprehensive Operations Analysis (COA) outlines the assessment of existing services, the public engagement and demographic analysis.

CityBus has developed modifications to the existing routes, schedules and bus stops with the goal of addressing the priorities of its customers, staff and community. The recommended changes are currently under final review.

Key Findings and Recommendations

- Identified opportunities for streamlining routes and improving on-time performance and rider convenience.
- Recommendation to design the service with "core" routes that provide high frequency and "local" routes that add coverage. All routes feed into a network of five strategically located transfer points.

Goals and Objectives

Customer Service

Provide the best service to the most people possible

Community Support

Provide equitable service and be good partners for economic development

Sustainability

Improve within a sustainable budget to ensure the future of service to the Greater Lafayette community

Guiding Objectives

The COA planning process incorporated research into existing demographic and socio-economic conditions, route utilization analysis and public engagement activities. Route recommendations are based on the following foundational objectives:

- **Realign routes to provide more direct rides to destinations.** CityBus operates on a pulse system with nearly all routes ending at the CityBus Center (CBC) on a pulse schedule that allows passengers to transfer to other routes, as needed. The analysis questioned if the pulse system is still the most effective way to serve the community, given the locations of trip generators, current travel patterns of the local residents, and planned or projected land use changes in Greater Lafayette.
- **Maintain or improve route frequency.** CityBus strives to maintain 30-minute frequencies or improve to even more frequent service, especially during peak hours of operation, for as many routes as possible. Frequent service improves convenience for the riders.
- **Promote balanced service.** CityBus has examined the demographic and socio-economic conditions of the community and its riders. The transit system strives to provide equitable service for everyone in the service area. All recommended changes considered equity impacts on minorities/non-minorities, people of all ages, and individuals with disabilities.
- **Maintain service affordability**. CityBus has not increased fares for over 20 years even as operating expenses have inflated. The system is considering a new fare structure that will help CityBus close the gap between operating expenses and revenues. The new structure includes new fare pass options and a pay-as-you-go fare capping option that will benefit frequent riders.
- **Operate within available and sustainable financial resources**. All recommended service change options consider the rider first and foremost. CityBus has carefully examined the financial reality and has determined that service changes will involve reductions in span of service at least until such time that additional revenues can be identified. With all changes, CityBus strives to maintain the best service for the most people within a sustainable budget.

The recommendations include service improvements that respond to the rider's needs and are based on **cost reduction** and **cost control** strategies. These strategies aim to reduce expenses by minimizing unnecessary or inefficient route segments and replacing them with more efficient routes. CityBus must consider the cost reduction and control approach unless opportunities for additional revenue improve.

A Reimagined Network to Streamline Routes and Improve Productivity

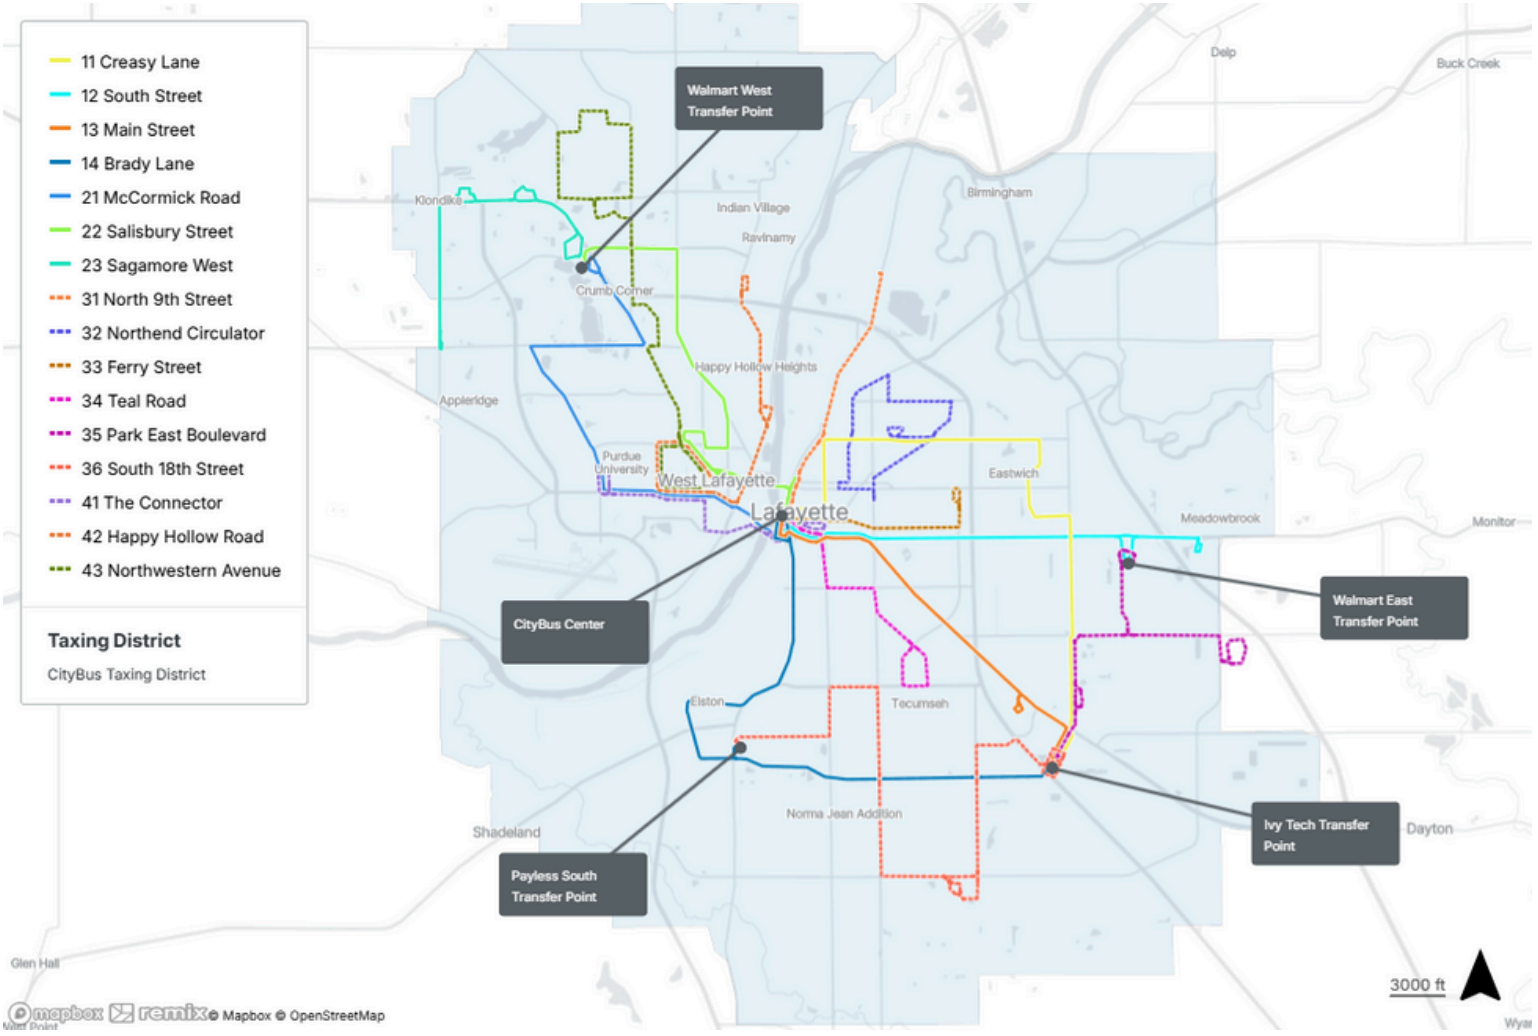

Exhibit 1

The recommended option takes a fresh approach to the entire CityBus network by implementing multiple transfer points strategically located across the service area and connecting the transfer points with routes that transport passengers within their neighborhood or offer a quick transfer to anywhere in the service area. The option has been presented to the public.

The reimagined network includes designing a combination of "core routes" and "local routes."

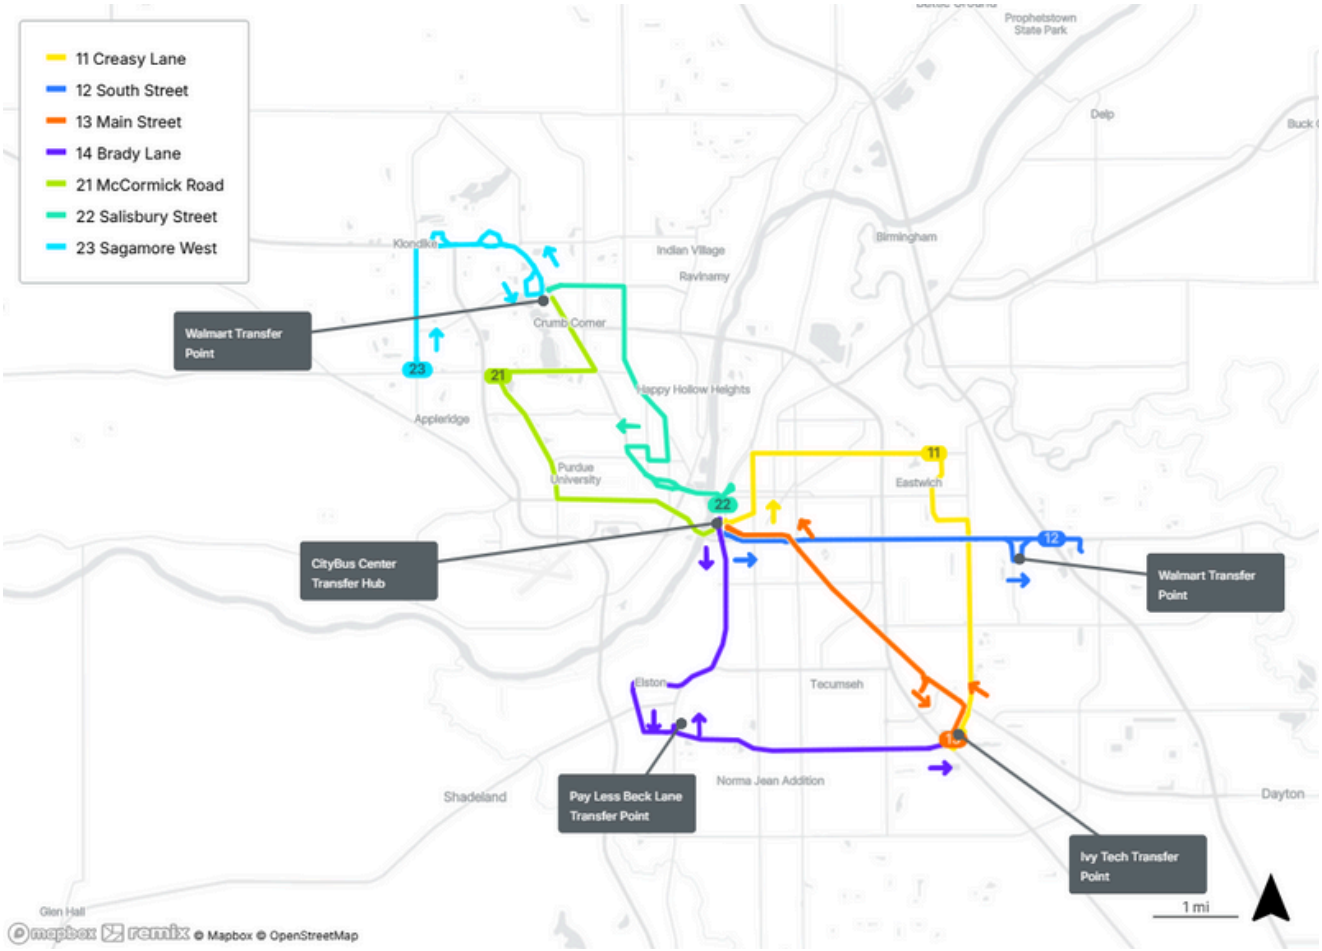

- The core routes (depicted below as solid lines) serve the areas with the highest density of people and popular destinations and connect to multiple transfer points, including the CityBus Center (CBC), with a high frequency of service.
- Local routes (depicted below as dashed lines) add coverage and connect neighborhoods and transfer points.
- The combination of core and local routes with multiple transfer points will reduce travel time for the rider and promote more direct access from point to point with less frequent need to travel downtown for a transfer. Transfer points include:
  - CityBus Center
  - Walmart West
  - Walmart East
  - Ivy Tech
  - Pay Less (Beck Ln.)

Recommendation: A Redesigned CityBus Network with New Transfer Points

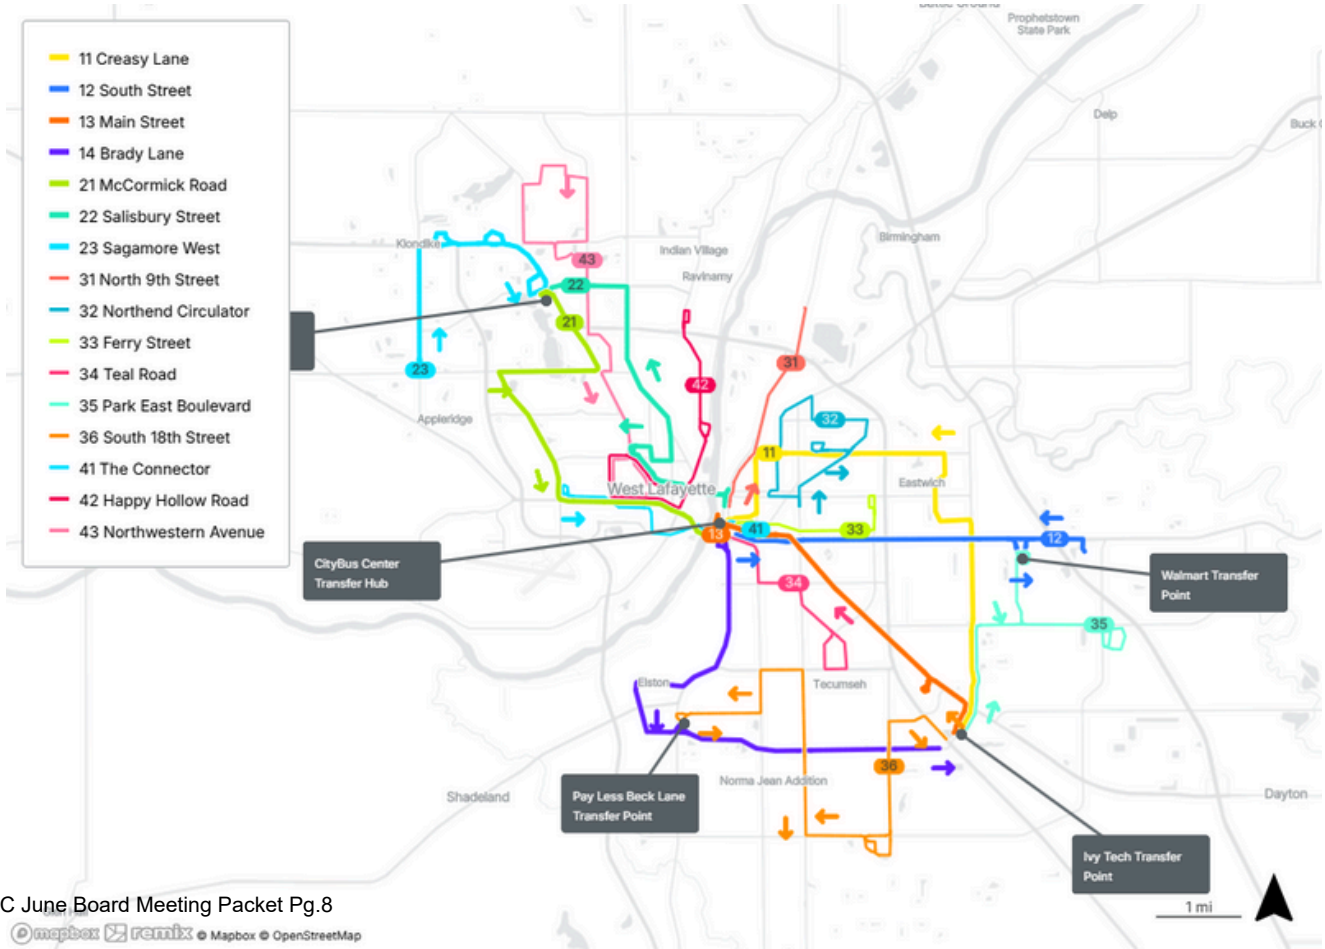

Daily Span of Hours (first hour of service to last hour of service)

7 Core Routes operate Monday through Saturday from 6:00 AM to 9:00 PM

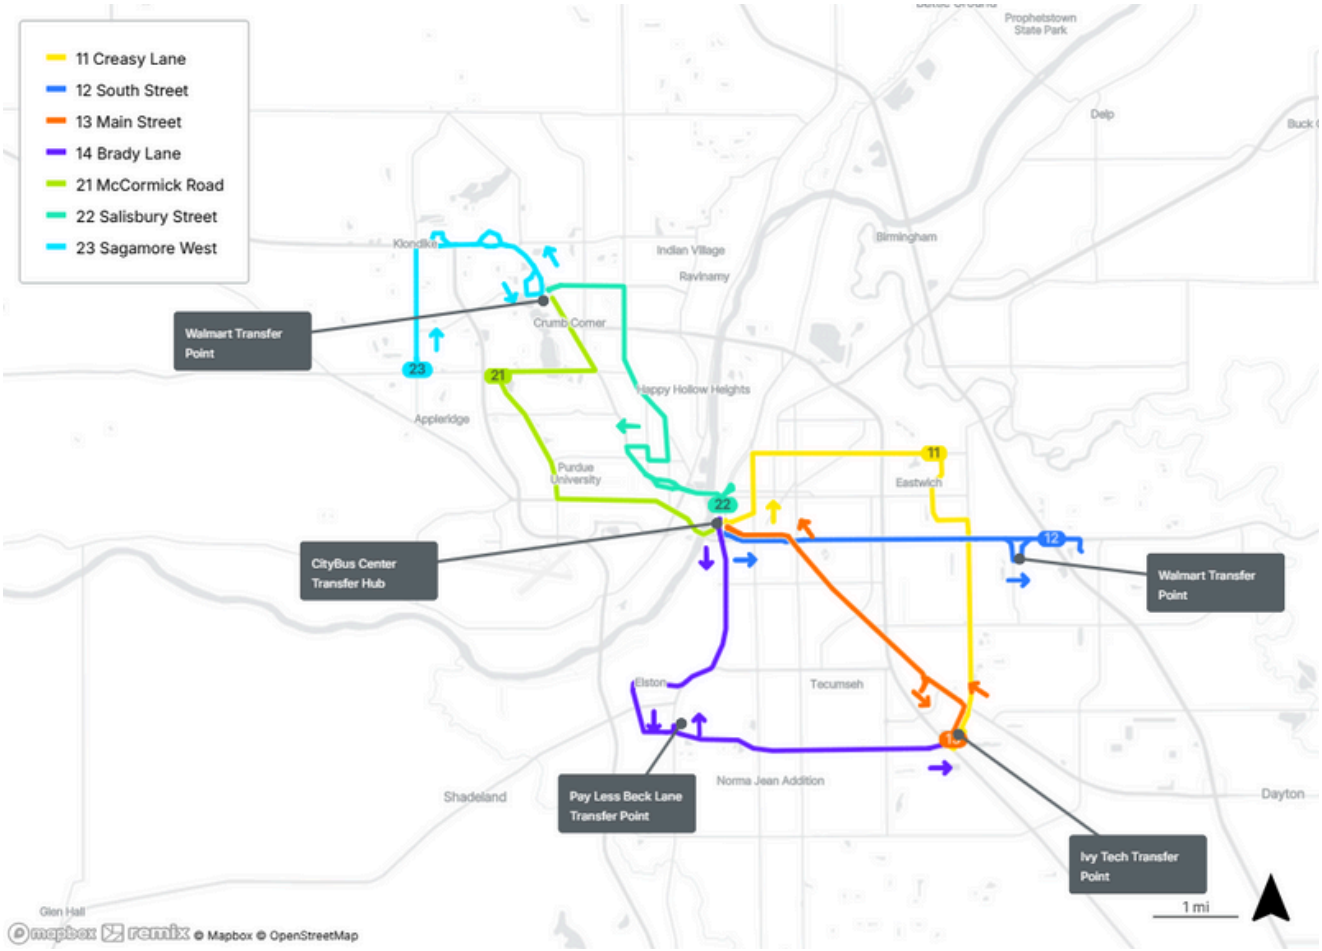

9 Local + 7 Core Routes operate Monday through Saturday from 7:00 AM to 6:00 PM

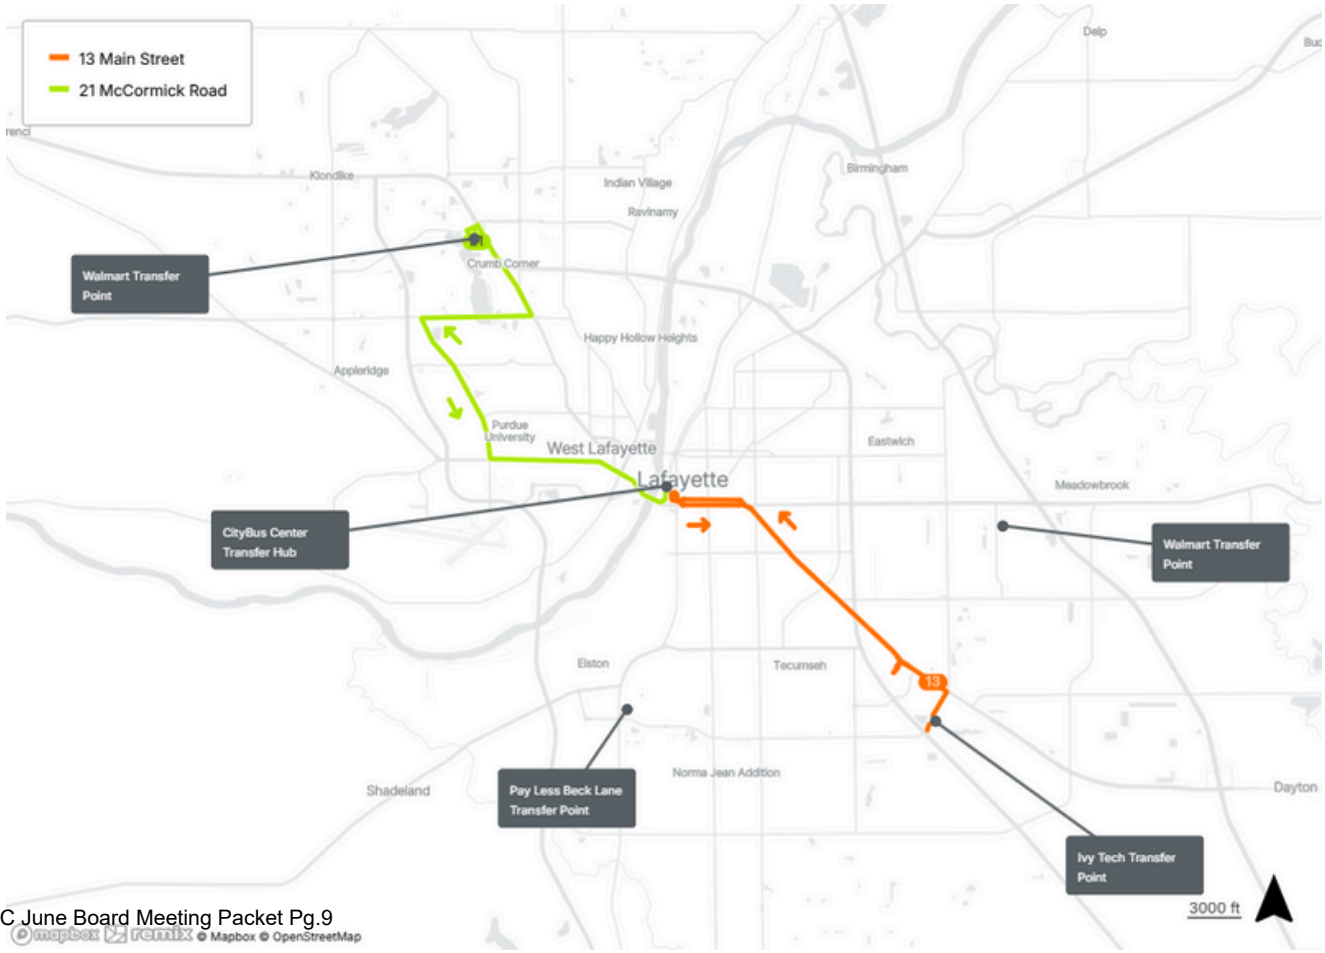

Evening and Late Night Span of Hours (first hour of service to last hour of service) Exhibit 1

Evenings - 7 Core Routes operate Monday through Saturday from 6:00 PM to 9:00 PM

Late Night - 2 Core Routes operate Monday through Saturday 9:00 PM to 11:00 PM

Route	Daily Span of Hours	Total Annual Hours of Operation
11 Creasy Lane	Mon. - Sat., 6:00 AM to 9:00 PM	12,035.44
12 South Street	Mon. - Sat., 6:00 AM to 9:00 PM	10,032.4
13 Main Street	Mon. - Sat., 6:00 AM to 11:00 PM	10,891.14
14 Brady Lane	Mon. - Sat., 6:00 AM to 9:00 PM	9,260.60
21 McCormick Road	Mon. - Sat., 6:00 AM to 11:00 PM	11,192.51
22 Salisbury Street	Mon. - Sat., 6:00 AM to 9:00 PM	11,994.44
23 Sagamore West	Mon., -Sat., 6:00 AM to 9:00 PM	5,050.84
31 North 9th Street	Mon., - Sat., 7:00 AM to 6:00 PM	2,735.04
32 Northend Circulator	Mon. - Sat., 7:00 AM to 6:00 PM	2,716.56
33 Ferry Street	Mon. - Sat., 7:00 AM to 6:00 PM	3,168.19
34 Teal Road	Mon. - Sat., 7:00 AM to 6:00 PM	2,716.56
35 Park East	Mon. - Sat., 7:00 AM to 6:00 PM	3,548.16
36 South 18th Street	Mon. - Sat., 7:00 AM to 6:00 PM	6,492.64
41 The Connector	Mon. - Sat., 7:00 AM to 6:00 PM	5,115.13
42 Happy Hollow Road	Mon. - Sat., 7:00 AM to 6:00 PM	4,360.75
43 Northwestern Avenue	Mon. - Sat., 7:00 AM to 6:00 PM	5,535.22

Total Annual Vehicle Revenue Hours = Approx. 106,846

TO: GLPTC Board of Directors

FROM: Bryan D. Smith

DATE: 6/25/2025

RE: CTE 2024 Low/No Grant Scope of Work

The attached Scope of Work is with our partners, CTE, on the 2024 Low/No grant. This is an extension of our work with them through the 2023 Low/No grant.

This Scope of Work has been reviewed by legal counsel and represents a $70K reduction from the original estimate submitted with the grant application.

We ask the Board to authorize the CEO to execute this document.

Statement of Work

CTE will use its Zero-Emission Smart Deployment Methodology to guide this project, which is designed to help agencies understand ZEB technologies and how to deploy them successfully. This Statement of Work (SOW) describes the phases of the project and the specific tasks CTE will complete to support the Greater Lafayette Public Transportation Corporation (CityBus) in the deployment of four (4) New Flyer fuel cell electric buses (FCEBs) and supporting hydrogen fueling and hydrogen bus maintenance infrastructure for its 2024 Low-No project. This SOW provides an overview of activities and an estimation of the time to complete each phase of the project. Each phase overview includes a description of the services to be provided by CTE with the associated CTE deliverables, fees, and payment terms. This SOW also includes a description of CTE's project controls and risk management procedures to guide the effective and efficient management of this project. A summary of the phases, CTE milestones, and fees can be found at the end of this SOW.

CTE has already performed extensive work with and for CityBus to support the deployment of FCEBs and supporting hydrogen fueling and hydrogen bus maintenance infrastructure under the agency's 2023 Low-No project. CTE's SOW for this project was developed to supplement and expand the work of the 2023 Project. Accordingly, several CTE-standard project phases (E.g. Project Planning, Requirements Analysis, etc.) have been eliminated or abridged as this work has already been completed under the 2023 Project.

Phase 1: Bus Procurement and Build

Estimated Time to Complete: 18 months
Phase 1 CTE Fee Total: $72,000

In this phase of the project, CityBus expects to purchase four hydrogen fuel cell electric buses from New Flyer that share the same specifications as those buses which the agency purchased via its 2023 Low-No Project. Accordingly, the work required to finalize the bus configuration, technical specifications, and other documents required for bus procurement from New Flyer is expected to be minimal.

Prior to the contract award to New Flyer, CTE will provide a Pre-Award Buy America Audit. CityBus will execute procurement contracts with New Flyer. New Flyer will submit its final bus design and specifications document for CityBus approval before proceeding with production. CityBus and CTE will participate in a pre-production meeting either virtually or at New Flyer's facility to confirm the design and to review quality control, quality assurance, and production procedures that will be in place for this order. Once the buses enter the production line, CityBus and CTE will meet with New Flyer regularly during the bus build to track progress. The phase will end with the delivery of the buses.

CTE will provide periodic inspection services. The goal of the inspection services is to ensure that the buses meet CityBus's specifications and that New Flyer is adhering to its quality control and

DRAFT

quality assurance standards. CityBus will conduct pre-delivery inspection and approve buses for delivery and post-delivery acceptance inspections. These efforts are consistent with both the Inspection and Test and Inspection and Test Status elements of FTA's Quality Management System.

After delivery, CTE will conduct a Post-Delivery Buy America Audit to ensure the FCEBs meet Buy America requirements. If needed, CTE may engage the services of external vendors to complete the periodic inspections, quality assessments, and Buy America audits.

Throughout this phase of the project, CTE will provide guidance and oversight to CityBus on bus procurement, design and manufacturing. CTE fees for providing these advisory services are included in the monthly project management fee and described in more detail in the section regarding Phase 5.

CTE's deliverables and associated fees and billing frequency for this phase of the project are included in the table below.

ID	Deliverables	Billing Frequency	Fee
1.1	Pre-Award Buy America Audits	One-time at completion	$8,500
1.2	Post-Delivery Buy America Audits	One-time at completion	$8,500
1.3	Inspection Reports	TBD based on final inspection scope	$55,000
		Total	**$72,000**

Phase 2: Infrastructure Design, Build, and Commissioning

Estimated Time to Complete: 12 months
Phase 2 CTE Fee Total: $110,000

This phase of the project includes all necessary steps to design, build, and commission the hydrogen fueling station and to perform upgrades to maintenance facilities required for the safe indoor storage and maintenance of FCEBs.

CTE will assist CityBus as it finalizes the specifications for the hydrogen station, including production, compression, storage, and dispensing.

The fueling station supplier will be responsible for the design and build of the hydrogen fueling station. CTE will work with CityBus to provide technical reviews during the design, construction, and installation process for the hydrogen refueling station. The fueling station supplier will develop site and installation plans for the station and obtain all necessary permits.

Third-Party Station Safety Review

DRAFT

CTE will coordinate a third-party, independent safety review of fueling station design plans prepared by the station vendor. The third-party reviewer will review detailed design drawings provided by the hydrogen station vendor as well as a Preliminary Hazard Analysis or HAZOPS documentation. The reviewer will provide comments, feedback, and recommendations to the station vendor regarding the station's design and safety documentation. The station vendor will be required to respond to the reviewer's comments. The reviewer will compile a report detailing its findings, comments, and recommendations, as well as the responses of the station vendor to those items. CTE will procure and act as the pay-through entity for the safety reviewer. CTE has budgeted a not-to-exceed amount of $40,000 to pay for this review. CTE will only bill CityBus for the actual cost of the review. Accordingly, if the final actual cost for the review is below the $40,000 threshold, the difference between the two amounts will not be billed to CityBus. If the final actual cost is greater than $40,000, the difference between the two amounts will also not be billed to CityBus.

Station Build

Once the site preparation for the station is completed, the fueling station supplier will install and commission the equipment. CTE will organize and coordinate with New Flyer and the fueling station supplier to complete first-responder and employee safety and operations training following the completion of station installation and commissioning.

CTE will work with the fueling station supplier and New Flyer to ensure station performance will meet CityBus's requirements for refueling its fleet and that the commissioning of the station is completed. CTE fees for providing these services are included in the monthly project management fee and described in more detail in the section regarding Phase 5.

Maintenance Facility Upgrades Procurement

CTE will develop a scope of work for the maintenance facility upgrades design services procurement. CityBus will issue a competitive procurement to select an architecture and engineering (A&E) contractor to provide engineering services for maintenance facility upgrades for their project. CTE will support CityBus to ensure the maintenance facility requirements are addressed in the solicitation documents for A&E services to design and engineer mechanical, electrical, and detection/alarm systems in CityBus's maintenance facilities. CTE will also assist CityBus in the technical evaluation of proposals received from A&E contractors.

Maintenance Facility Upgrades Design and Construction

CTE will assist CityBus in reviewing the design documents produced by the selected engineering firm for upgrading existing maintenance facilities with modifications to electrical and mechanical systems and the installation of gas and fire detection equipment. The engineering firm will be responsible for assisting CityBus in seeking necessary permits and issuing a competitive procurement to complete building modifications and system installations.

CTE will work with CityBus to provide administrative oversight and technical reviews during the facility upgrades development and construction processes. CityBus will coordinate communication meetings and provide project overview and recommendations through to the conclusion of the facility upgrade construction process. If the facility upgrade development and construction process

DRAFT

is minor or CityBus elects not to proceed with facility upgrades, CTE shall work with CityBus in-good-faith to reduce its fee for this work item.

CTE's deliverables and associated fees and billing frequency for this phase of the project are included in the table below.

ID	Deliverables	Billing Frequency	Fee
2.1	Third-Party Station Safety Review	One-time at completion	Not-to-Exceed $40,000
2.2	Facility Modification Procurement Scope of Work/Requirements Inputs	One-time at completion	$20,000
2.3	Facility Modification Procurement Support and Technical Evaluation	One-time at completion	$30,000
2.4	Facility Modification Upgrades Design and Construction Support	One-time at completion	$20,000
		Total	**$110,000**

Phase 3: Deployment Validation and Key Performance Indicators

Estimated Time to Complete: 16 months
Phase 3 CTE Fee Total: $100,000

CTE will develop an automated web-based reporting and presentation KPI dashboard for CityBus. The agency will have access to an always-on reporting suite which will allow it to view and analyze its data in a variety of new and customizable ways.

Using this dashboard, CTE will collect, analyze, and report on Key Performance Indicators (KPIs) as a method of deployment validation to help track and understand the performance of CityBus's fuel cell electric buses. These metrics will allow CityBus and FTA to fully understand operational metrics to determine if the projected benefits have been realized from the deployment of the fuel cell electric buses, including impact on emissions, fuel consumption and cost, and maintenance. This project's scope will extend the KPI reporting period from the 2023 Low-No project by an additional 12 months. All of CityBus's FCEBs will be covered under this phase's reporting services.

CTE's deliverables and associated fees and billing frequency for this phase of the project are included in the table below.

ID	Deliverables	Billing Frequency	Fee
3.1	KPI Dashboard Development	One-time at completion	$10,000
3.2	Monthly KPI Reports	$7,500 per month for 12 months	$90,000
		Total	**$100,000**

Phase 4: Project Close Out

DRAFT

Estimated Time to Complete: 2 months
Phase 4 CTE Fee Total: $16,000

After the data collection period is over, CTE will issue a final report summarizing project results, findings, and lessons learned. CityBus will close out the project with FTA.

CTE's deliverables and associated fees and billing frequency for this phase of the project are included in the table below.

ID	Deliverables	Billing Frequency	Fee
4.1	Final Report	One-time at completion	$16,000
		Total	**$16,000**

Phase 5: Project Management, Advisory Services, Reporting, and Control

Estimated Time to Complete: 2.5 years
Phase 5 CTE Fee Total: $194,000

CTE will support CityBus through the entire deployment project including deployment planning; bus specification development; infrastructure planning and procurement support; fuel station supplier selection; hydrogen fuel sourcing; and final deployment. Project management will include but is not limited to the following activities:

- *Coordinating regular meetings and information sharing between project partners and stakeholders* — CTE will coordinate regular, timely and appropriate meetings with the needed staff. This will include recurring status meetings, as well as focused workshops and other events. Meeting coordination includes detailed agendas, meeting minutes and follow-up. These meetings and communications reduce effort required from CityBus's staff, increase transparency, and ensure that the agency's interests and goals are prioritized and fulfilled throughout the project term.

- *Advocating for the transit agency's interests* – Within the project, CTE will act as an advocate and advisor solely focused on CityBus's interests and concerns. CTE's 25 years of expert experience in electric vehicle technology is crucial when considering the unique requirements of zero-emission bus system planning, design, and construction. CTE's unbiased experience and broad network of industry contacts result in rapid and impartial guidance, helping transit agencies select the technology that will best suit their needs and avoid pitfalls of electric bus implementation without being beholden to the bus manufacturer. CTE has proven experience in ensuring transparency on the capabilities, operation and maintenance of hydrogen fuel cell electric buses, and ensuring that the final buses meet all specifications and service requirements.

DRAFT

- *Technical Advisory*– CTE provides technical advisory services throughout the project to ensure that CityBus staff understand the differences in technology and the best practices for deploying and operating ZEBs. CTE will advise CityBus on ZEB technology best practices, key deployment strategies; ZEB supplier terms and conditions; fueling infrastructure approaches; oversight of bus manufacturing and design; construction and installation of hydrogen fueling stations; and ZEB training, operations, and maintenance.

- *Tracking project tasks, budget timeline and related project risks* — CTE will develop and maintain the project schedule, and ensure that all milestones and deliverables are completed effectively and on time. CTE will also rigorously track and drive the resolution of project risks and action items to ensure project success.

CTE's project management fees will be invoiced in monthly installments, per the following schedule in which the fees vary based on expected project activity throughout the project.

Period Covered	Billing Amount & Frequency	Total Fee
Months 1-12	Monthly installments of $8,000	$96,000
Months 13-24	Monthly installments of $6,000	$72,000
Months 25-30	Monthly installments of $4,333	$26,000
	Total	**$194,000**

CTE will prepare deliverables associated with CTE-specific tasks. These deliverables may include, but are not limited to, the following:

- Project Status Meeting Agendas and Minutes
- Quarterly Management Reports (QMRs)
- Ad hoc Reports, Communications, and Presentations as requested
- Tracking Project Tasks, Risks, Budgets, and Timeline

Project Administration, Reporting & Control

CTE will guide the entire project by the control and risk management procedures detailed below. CTE's centralized management of the work program will enable team members to concentrate on exceeding project goals and ensure production of deliverables in a clear and well-coordinated manner. Details of CTE's processes for ensuring the efficient accomplishment of these tasks are as follows:

Collaboration Tools

CTE will use e-mail, Dropbox and Smartsheet to share project files and communications, coordinate tasks, track issues, and maintain project calendars.

DRAFT

Communications Plan

Team members will participate in weekly or bi-weekly conference calls to discuss project status and current issues. CTE will take and share meeting minutes to ensure open access to proceedings. Online video conferencing will be employed when team members desire a presentation format to share status updates. CTE will schedule additional conference calls with team members as needed.

Reporting Plan

CTE will provide CityBus with quarterly summaries of project status and activities through Quarterly Management Reports (QMRs). The QMRs provide a summary of project status, progress, and accomplishments of the previous quarter and projections for the remainder of the project. The QMR will be structured to allow CityBus to easily incorporate the information into the required FTA Quarterly Report submitted by CityBus. The QMR will document project progress and activities as well as describe any known risks and plans for mitigation.

CTE will compile the QMRs with input from team members. CTE will provide team members with a QMR template that will include:

- Summary narrative of accomplishments by task/milestone during the period
- Estimated % completion and expected completion dates of task/milestone
- Significant events affecting progress and discussion of project variances
- Remaining activities and expected completion dates

CTE will also compile a Final Management Report at the end of the project to summarize the project accomplishments, realized benefits, and lessons learned.

Risk and Action Item Management and Mitigation Plan

CTE provides strong and engaged oversight of project progress through the suite of management controls and procedure outlined above. CTE's management method allows it to anticipate and manage potential project risks and ensures quick recognition of any unexpected project risks that arise. All identified project risks are documented, assigned to project team members for research, analysis, and resolution, and are tracked through the project. Risks and related mitigation tasks are prioritized to ensure that project team members remain focused on the right activities at the right time. Critical issues that remain unresolved or may impact project timeline, scope, budget or resources are escalated to CityBus management for immediate attention.

Schedule Control Plan

CTE will be responsible for maintaining the overall project schedule with input from team members.

Team members will report the schedule status for their assigned tasks during the regular team calls. If the actual progress for a task is determined to be behind the planned schedule, CTE will work with CityBus to develop appropriate corrective action based on the schedule variance, the amount of work remaining, the impact on other tasks, and impact on the overall schedule.

DRAFT

CTE Deliverables

No.	Phase	Billing Frequency	Deliverable	Total	Cost per Deliverable ($)
1	**Bus Procurement and Build**			**$72,000**	
1.1		One-time at deliverable completion	Pre-Award Buy America Audits		$8,500
1.2		One-time at deliverable completion	Post-Delivery Buy America Audits		$8,500
1.3		TBD based on final inspection scope	Inspection Reports		$55,000
2	**Infrastructure Design, Build, and Commissioning**			**$110,000**	
2.1		One-time at deliverable completion	Third-Party Station Safety Review		Not to Exceed $40,000
2.2		One-time at deliverable completion	Facility Modification RFP Scope of Work/Requirements Inputs		$20,000
2.3		One-time at deliverable completion	Facility Modification RFP Procurement Support and Technical Evaluation		$30,000
2.4		One-time at deliverable completion	Facility Modification Upgrades Design and Construction Support		$20,000
3	**Deployment Validation and Key Performance Indicators**			**$100,000**	
3.1		One-time at deliverable completion	KPI Dashboard Development		$10,000
3.2		Monthly installments over a 12-month period ($7,500 per month)	Monthly KPI Reports		$90,000
4	**Project Close Out**			**$16,000**	
4.1		One-time at deliverable completion	Final Report		$16,000
5	**Project Management, Advisory Services, Reporting, and Control**			**$194,000**	
5.1		12 Monthly installments of $8,000	Months 1-12		$96,000
5.2		12 Monthly installments of $6,000 over 12	Months 13-24		$72,000
5.3		6 Monthly installments of $4,333	Months 25-30		$26,000
Total CTE Budget				***$492,000***	

DRAFT

FY 2024-2028 TIP Amendment
CityBus

Staff Report
Jun 25, 2025

BACKGROUND AND REQUEST:
CityBus requests an amendment to the TIP.

The Greater Lafayette Public Transportation Corporation has been awarded a Section 5339 fund for bus purchase. The total funding of $534,649, including 5339 2025 fund of $427,719 and a local match of $106,930 will be used to fund a partial CNG bus purchase.

Description	Federal Share	Local Share	Total Cost
CNG bus purchase	$427,719	$106,930	$535,649

The CityBus Board of Directors authorized the amendment to the Transportation Improvement Program for the FY 2025 funds on June 25, 2025.

RECOMMENDATION:
Staff recommend approval of this amendment to the Policy Board.

CEO REPORT TO GLPTC BOARD OF DIRECTORS

MEETING DATE: June 25, 2025

CEO

Hard to believe, but it is time to start working on next year's budget. Joanne, Bryan, and I have been working on getting a draft together, with the goal of presenting the first look to the Board in July. We have been working with Purdue for off campus access, and with our contracted apartment contracts as part of the budgeting effort. We are also working on getting the best possible forecast for the effects of the property tax reform bill passed this year and possible alternative sources of funds.

We are working with CTE again on submitting a grant application for the 2025 Bus&Bus Facilities/Low&No Emission programs.

I will be traveling to San Francisco at the end of the month to attend the APTA Legislative Committee to advocate for the creation of a Transit Intensive Cities program for agencies with UZA (urbanized areas) between 200,000 and 1M. This is an effort to get the recommendation for the next reauthorization (current 5-year bill ends in September 2026). With local predictions that our UZA will exceed 200,000 in the next census, this could help us not lose 1/3 of our federal funding when that occurs. While this would happen sometime in 2032-33, now is the time to ask for the change.

COO

Internal and public engagement around the proposed Reimagine CityBus network redesign remained a major focus throughout the month. Preparing for this effort has required strong coordination across departments, including the development of outreach materials, website updates, staffing of public meetings, and staff information sessions. These efforts have made it possible to connect with riders and stakeholders across the service area. The input we've received will be especially valuable as we roll out the updated network and make future adjustments based on real-world needs and rider experience.

We continue to strengthen existing contract relationships and explore new partnership opportunities that support our express route services. These efforts are aimed at sustaining service and ensuring continued revenue support for this important segment of our operations.

We also began transitioning demand response dispatching into the fixed-route dispatch office, consolidating all service coordination into a centralized control center. This operational shift is designed to streamline communication, improve efficiency, and support a more unified service delivery model.

Planning and training continue as we move toward implementation of the updated network, fare adjustments, and related policy changes in the coming months. Other ongoing projects, including the hydrogen fuel cell bus initiative, continue to advance as anticipated.

FINANCE

- Annual financial audit for 2024 is done. Old findings have been resolved and there are no new findings in this audit. The whole team has worked extremely hard and done thorough jobs to make sure 2024 transactions and postings are accurate. The auditor

also agreed to our corrections of prior years' balance sheet issues. Many of the accumulated issues were addressed in 2024. The accounting process is much more effective than it was before.

- Annual grant amendments or adjustments have been done in TRAMS (the FTA grant system). This year, we have obligated the 2024 low-no grant, cleaned up the budget line items for two old grants (which prior year errors have been corrected, and balances are adjusted for future projects), and amended two open grants with additional funding. It is the most productive year for grant management.
- The 2024 NTD annual report is complete.
- The team is evaluating Oracle NetSuite ERP system, which procurement was done by NeoRide early this year. Once the evaluation is complete, we will report the cost and performance analysis to the board.
- The TIP amendment for the Section 5339 2025 funds received from INDOT is included in the board packet for approval.
- We are getting ready to work on FTA triennial onsite audit in July.

HUMAN RESOURCES

- Filled C Level Mechanic position. .
- Promoted a part-time Demand Response to full-time, filling an opening we had available.
- Began internal search for new AM Control Center Supervisor, following an internal move.
- Continued work on a updated to the employee handbook.
- Onboarded new bus operator class.
- Processed June 1, 2025, pay rate changes in line with the CBA.
- Began serving in the role of drug and alcohol program Designated Employer Representative (DER), administering drug and alcohol compliance tests.
- Began reporting monthly required FTA NTD information and updated past due information for March 2025.
- Prepared and presented safety training for new employes recently hired.
- Currently in the process of re-organizing the Joint Safety Committee.
- Currently in the process of obtaining quotes from vendors/contractors for repairs and upgrades to the fire alarm systems in the buildings.
- Began regular maintenance of facility AED’s. Obtained CPR rescue packs and inspection tags for the AED cabinets.
- Purchasing of “Stop the Bleed” kits to add to the AED cabinets.

MAINTENANCE

- Starting Masabi readers in fleet
- Bus 3214 Rear differential replacement
- Bus 0914 radio, fair box, camera installation
- Bus 4003 in for air conditioning repair
- Bus 5007 in the body shop for accident repair and repaint

OPERATIONS

- We are currently holding drivers' instructional meetings discussing the future of rate and route changes. Overall, we have had a positive reception and commitment to carrying the message to the public. Our commitment is to have all drivers made aware by management before the 1st of July.

- After 20 ½ years of service as a driver, dispatcher and dispatch supervisor, Theresa Anthrop is making the transition to street supervisor. We would like to thank Theresa for her continued service in helping make CityBus a great place to work.
- We are currently taking applications to replace the 1st shift control center supervisor position vacated by Theresa. We also have a morning shift dispatch position to fill.
- This last training class with be sending three individuals to Indy to take their class B passenger endorsement test, in the next two weeks.

CUSTOMER EXPERIECE

- The bus stop signage and poles project is moving forward. 40% of the sign installation is complete. Flagging for 4A, 6A and 7 have been completed. We are being held up right now by 811, the utility location service.
- COA feedback public forums have been completed. Data analysis is now taking place
- Several community outreach events have taken place and several more are scheduled this summer.
- Continuing the implementation of both HopThru and Masabi contracts. These contracts will bring improved automatic passenger count and fare collection technologies to CityBus.
- Continuing to work with the Purdue Center for Regional Development through the Wabash Heartland College & Community Collaboration Initiative to bring vanpooling services to Tippecanoe Country and surrounding counties.
- Enhancing customer experience for our riders and drivers with the return of our travel training program, increased amount of social media posts and testimonials.

INFORMATION TECHNOLOGY

- HopThru is finalizing the APC count certification documentation for the NTD. We plan to submit the application by 6/18. Based on recent applications from other agencies, we are hopeful that NTD will certify our APC counts by the end of June, but they could take a few weeks longer.
- The equipment and furniture move has been completed for consolidation of Access and Fixed Route dispatch.
